A disturbing trend faces education in the U.S.--not plagiarism but academic forgery (students purchasing and signing their names to work produced by others). This book, by a former professional forger, describes the difference between the two and presents case studies along with an expose of the trade. The author provides a thorough treatment of the topic and reveals the serious implications for the future of academia. Educators should educate themselves about forgery and join the conversation about solving the problem. Confessions of an Academic Forger Diversion Books Following the 1862 – 63 winter of discontent, Grant suddenly launched a brilliant campaign against Vicksburg

which ultimately bisected the Confederacy. A long campaign, which had begun in November 1862, with an advance from Tennessee down the Mississippi Central Railroad and a premature assault on Vicksburg in December by troops under Sherman, and which had been followed by long months of false starts and apparent inactivity in the bayou country north of the city and across the Mississippi River in Louisiana, suddenly reached a quick and dramatic conclusion, as the events in this volume show. **State, papers and Letters, addressed to W. Carstares** Cosimo, Inc. In 1910, New York City was bursting at the seams as more and more people crowded into a limited supply of

housing in the tenement districts of Manhattan and the older areas of Brooklyn. With no outlet for its exploding population, and the burgeoning social problems created by the overwhelming congestion, New York faced a serious crisis which city and state leaders addressed with dramatic measures. In March 1913, public officials and officers of the two existing rapid transit networks shook hands to seal a deal for a greatly expanded subway system which would more than double the size of the two existing transit networks. At the time the largest and most expensive single municipal project ever attempted, the Dual System of Rapid Transit set the pattern of growth in New York City for decades to come, helped

provide millions of families a better quality of life, and, in the words of Manhattan borough president George McAneny (1910-1913), "proved the city's physical salvation." It stands as that rare success story, an enormously complicated project undertaken against great odds which proved successful beyond all measure. "Gilchrist excels in drawing the bonds of love and resentment in sexual and family relationships, and no one who encounters her characters here or in her earlier works will want to miss reading about them again." —Publishers Weekly To Anna Hand, death happens when you allow it to. An accomplished author with a string of devoted lovers, Anna Hand savors life in all of its bittersweet, fleeting moments. So when she gets a letter from the illegitimate child of her brother, she sees a major part of life that has passed her by, a child to love. Desperate to unite this young girl with her father, Anna moves back to Charlotte, North Carolina, to rediscover her family and convince her brother to accept the daughter he knew nothing about. Caught between the politics of her uppercrust family and love for a married man, Anna finds her health in serious danger. When Anna's bad days catch up with her good ones, she must finally face the disease that had been hiding just beneath the surface. Not willing to resign herself to months of aggressive treatment, and knowing the outcome will be the same regardless, she takes matters into her own hands, and surrenders her body to the sea. But it isn't only Anna's death that shocks her family. The papers she left behind may lead her sister Helen to discover more about Anna than she, or any of the Hand family, need to know. *Accounts and Papers of the House of Commons* NYU Press

In the first comprehensive study of election law since the Supreme Court decided Bush v. Gore, Richard L. Hasen rethinks the Court's role in regulating elections. Drawing on the case files of the Warren, Burger, and Rehnquist courts, Hasen roots the Court's intervention in political

process cases to the landmark 1962 case, Baker v. Carr. The case opened the courts to a variety of election law disputes, to the point that the courts now control and direct major aspects of the American electoral process. The Supreme Court does have a crucial role to play in protecting a socially constructed "core" of political equality principles, contends Hasen, but it should leave contested questions of political equality to the political process itself. Under this standard, many of the Court's most important election law cases from Baker to Bush have been wrongly decided.

Anna, a German mill-owner's daughter, marries a French aristocrat and moves to France. She discovers that her husband killed his previous wife and that he is trying to kill her as well. Quick, intriguing, and with an extremely interesting plot, 'The Grey Woman' (1861) is a short story by Elizabeth Gaskell for anyone who

enjoys a good gothic shudder. 1760 - 1776

Incredibly progressive for its time, it is about the survival of the ill-treated woman who has decided that enough is enough. Elizabeth Cleghorn Gaskell (1810-1865) was an English novelist, short story writer, and biographer, best known for her novels 'North and South' and 'Wives and Daughters' as well as her biography of Charlotte Brontë. Gaskell was viewed as a minor author until the 1950s where it became evident that her depiction of industrial environments and social problems was brilliant and poignant.
