Twenty years after their college graduation, four Radcliffe girls return to their Harvard class reunion with mixed emotions and curiosity. It is the first time they have met since their hopeful student years, when each of them had wonderful dreams of becoming wives, mothers, and successful career women. But much has changed since the fifties, and the former classmates' lives have been altered by events none of them could have foreseen. Humorous, heartwarming, often poignant and nostalgic, *Class Reunion* captures the spirit of the fifties brilliantly in contrast to the changing world the four girls have embraced, often with

straightforward and pithy commentary on the social conventions of the past.

The Northern/Irish Feminist Judgments Project inaugurates a fresh dialogue on gender, legal judgment, judicial power and national identity in Ireland and Northern Ireland. Through a process of judicial re-imagining, the project takes account of the peculiarly Northern/Irish concerns in shaping gender through judicial practice. This collection, following on from feminist judgments projects in Canada, England and Australia takes the feminist judging methodology in challenging new directions. This book collects 26 rewritten judgments, covering a range of substantive areas. As well as opinions from appellate courts, the book includes first instance decisions and a fictional review of a Tribunal of Inquiry. Each feminist judgment is accompanied by a commentary putting the case in its social context and explaining the original decision. The book also includes introductory chapters examining the project methodology, constructions of national identity, theoretical and conceptual issues pertaining to feminist judging, and the legal context of both jurisdictions. The book, shines a light on past and future possibilities - and limitations - for judgment on the island of Ireland. 'This book provides a rich and expansive addition to the feminist judgments catalogue. The ... judgments demonstrate powerfully how Northern/Irish judges have contributed to the gendered politics of national identity, and how the narrow subject-positions they have created for women and 'others' could have been so much wider and more open.' Professor Rosemary Hunter, School of Law, Queen Mary University London. 'The Northern/Irish Feminist Judgments Project is inspirational reading for anyone interested in feminism or Irish studies ... It is a model of how to conduct

feminist enquiry. Its most innovative contribution to scholarship and politics is how the rewriting of landmark legal judgments from a feminist perspective allows us to imagine (and therefore begin to construct) a more egalitarian, a more just, future.' Associate Professor Katherine O'Donnell, School of Philosophy, University College Dublin. If you let it, this book will make you think. ... It made me think – it reminded me, I suppose – that legal writing can be wonderful: rigorous, creative, deeply observant, provocative. Read it and see what it makes you think. Professor Thérèse Murphy, School of Law, Queen's University Belfast

This book brings together feminist academics and lawyers to present an impressive collection of alternative judgments in a series of Australian legal cases. By re-imagining original legal decisions through a feminist lens, the collection explores the possibilities, limits and implications of feminist approaches to legal decision-making. Each case is accompanied by a brief commentary that places it in legal and historical context and explains what the feminist rewriting does differently to the original case. The cases not only cover topics of long-standing interest to feminist scholars – such as family law, sexual offences and discrimination law – but also areas which have had less attention, including Indigenous sovereignty, constitutional law, immigration, taxation and environmental law. The collection contributes a distinctly Australian perspective to the growing international literature investigating the role of feminist legal theory in judicial decision-making.

The leading text in the field, Introduction to

Feminist Legal Theory was the first book that served as an introductory survey of feminist jurisprudence. Its historical view of feminist legal theory places issues in social context and thoroughly reviews the evolving paradigms of contemporary feminism from the 1970s through the present. The full range of legal issues affecting women are covered, including gender discrimination, rape, sexual harassment, motherhood, reproductive issues, and much more. Clear, energetic presentation keeps students engaged and involved with succinct overviews, intellectually stimulating material, and jargon-free prose. The Third Edition features up-to-date theories and topics, such as the "autonomy" feminism and "masculinities" theory. Expansion of the current theory-based structure includes the "big three" feminisms described in the previous edition and the "new three" feminisms, which are expanded in the third edition. New applied areas are covered as well, such as transgender legal issues and sex trafficking. While the book remains U.S.-focused, important new material on global and comparative feminism has been added. Throughout the text, students will find discussion about changes in the law since 2003 on issues such as rape, pay equity, sex stereotyping, marriage equality, Title IX, and more. Thoroughly updated, the revised Third Edition presents: Up-to-date theories and topics "autonomy" feminism, "masculinities" theory, "social justice" feminism LGBT and critical race perspectivesa Two-part organization, focusing on chronology and substantive areas of the law that are of particular importance to feminist legal scholars Part one focuses on chronology by examining the three generations of feminist legal theory that have emerged since 1971 the Generation of Equality (1970s) the Generation of Difference (1980s) the Generation of Complex Identities (1990s to present) this part will also include the "new three" feminisms in the 3rd edition (intersectional, autonomy and postmodern

Conceived of as a set of fragmentary manuscripts from an unpublished Joseph Roth novel, Mario Bellatin's *Jacob the Mutant* is a novella in a perpetual state of transformation -- a story about a man named Jacob, an ersatz rabbi and owner of a roadside tavern. But when reality shifts, so does Jacob, mutating into another person entirely, while the novella mutates into another story. The fundamental fact about our Constitution is that it is old -- the oldest written constitution in the world. The fundamental challenge for interpreters of the Constitution is how to read that old document over time. In *Fidelity & Constraint*, legal scholar Lawrence Lessig explains that one of the most basic approaches to interpreting the constitution is the process of translation. Indeed, some of the most significant shifts in constitutional doctrine are products of the evolution of the translation process over time. In every new era, judges understand their translations as instances of "interpretive fidelity," framed within each new temporal context. Yet, as Lessig also

argues, there is a repeatedly occurring countermove that upends the process of translation. Throughout American history, there has been a second fidelity in addition to interpretive fidelity: what Lessig calls "fidelity to role." In each of the cycles of translation that he describes, the role of the judge -- the ultimate translator -- has evolved too. Old ways of interpreting the text now become illegitimate because they do not match up with the judge's perceived role. And when that conflict occurs, the practice of judges within our tradition has been to follow the guidance of a fidelity to role. Ultimately, Lessig not only shows us how important the concept of translation is to constitutional interpretation, but also exposes the institutional limits on this practice. The first work of both constitutional and foundational theory by one of America's leading legal minds, *Fidelity & Constraint* maps strategies that both help judges understand the fundamental conflict at the heart of interpretation whenever it arises and work around the limits it inevitably creates.

An innovative collaboration between academics, practitioners, activists and artists, this timely and provocative book rewrites 16 significant Scots law cases, spanning a range of substantive topics, from a feminist perspective. Exposing power, politics and partiality, feminist judges provide alternative accounts that bring gender equity concerns to the fore, whilst remaining bound by the facts and legal authorities encountered by the original court.

Paying particular attention to Scotland's distinctive national identity, fluctuating experiences of political sovereignty, and unique legal traditions and institutions, this book contributes in a distinctive register to the emerging dialogue amongst feminist judgment projects across the globe. Its judgments address concerns not only about gender equality, but also about the interplay between gender, class, national identity and citizenship in contemporary Scotland. The book also showcases unique contributions from leading artists which, provoked by the enterprise of feminist judging, or by individual cases, offer a visceral and affective engagement with the legal. The book will be of interest to academics, practitioners and students of Scots law, policy-makers, as well as to scholars of feminist and critical theory, and law and gender, internationally.

Demonstrates how film adaptations intersect with feminist discourse in neoliberal Mexico. Adapting *Gender* offers a cogent introduction to Mexico's film industry, the history of women's filmmaking in Mexico, a new approach to adaptation as a potential feminist strategy, and a cultural history of generational changes in Mexico. Ilana Dann Luna examines how adapted films have the potential to subvert not only the intentions of the source text, but how they can also interrupt the hegemony of gender stereotypes in a broader socio-political context. Luna follows the industrial shifts that began with Salinas de Gortari's presidency, which made the long 1990s the precise moment in which subversive filmmakers, particularly women, were able to participate more fully in the industry and portrayed the lived experiences of women and non-gender-conforming men. The analysis focuses on Busi Cortés's *El secreto de Romelia* (1988), an adaptation of Rosario Castellanos's short novel *El viudo Román* (1964); Sabina Berman and Isabelle Tardán's *Entre Pancho Villa y una mujer desnuda* (1996), an adaptation of Berman's own play, *Entre Villa y una mujer desnuda* (1992); Guita Schyfter's *Novia que te vea* (1993), an adaptation of Rosa Nissán's eponymous novel (1992); and Jaime Humberto Hermosillo's *De noche vienes*, Esmeralda (1997), an adaptation of Elena Poniatowska's short story "De noche vienes" (1979). These adapted texts established a

significant alternative to monolithic notions of national (gendered) identity, while critiquing, updating, and even queering, notions of feminism in the Mexican context. “Adapting Gender demonstrates Luna’s considerable skills as a scholar. She deftly carries out a careful analysis of the literary and cinematic texts, putting them in the context of the evolving publishing and film industries. Written in a lively and engaging style, this is a unique synthesis of the evolution of feminism and the roles women have had—indeed, at times, been limited to—in Mexico and what this has meant for their creative output.” — Niamh Thornton, author of *Revolution and Rebellion in Mexican Film*
