This edition connects accounting concepts to the "bigger picture" as chapter-opening schemas clearly demonstrate how each chapter's content fits within the overall framework of the book. The CengageNOWv2's Journal Entry Tool reinforces this approach by automatically illustrating the impact of transactions on the accounting equation.

Chapter 1 introduces the study of accounting. Accounting is defined as a set of concepts and techniques that are used to measure and report financial information about an economic entity. Accounting consists of both external reporting issues known as "financial accounting," and internal reporting issues related to "managerial accounting."
