When instruments are harmoniously joined together, beautiful music ensues. Just as in a classic symphony, life often occurs in phases, or movements. In his creative comparison Symphony

#1 in a Minor Key, literary exegete Alan Block shares his philosophies on four movements reflected in his own life, each loosely modeled on a different musical form linked to the emotions of a life both fully lived and joyously celebrated. In the first movement, Sonata Allegro, Block juxtaposes biblical stories with personal experiences as he explores the contradictory nature of what it means to leave home in search of another home. In the second movement, representing a slow march to and from the grave, he focuses his examination on the funerals of three very different people from a Jewish perspective. In strong contrast, Block presents a glimpse into his absurd daily world in the third movement, punctuated by jokes and commentary. Finally, he shares a celebration of life and hope inspired by the final movement of Beethoven's Seventh Symphony, encouraging others to be open to the sublime and realize that none of our worlds is perfect. Symphony #1 in a Minor Key shares one man's reflections as he offers a fascinating meditation on life, death, and everything in between.

Management Accounting. Balance Sheet | Profit/Loss Account | Profit Plan | Finance Plan | Budgeted Balance Sheet.

"Management Accounting." wants to give a comprehensive overview of the topic accounting/controlling - the Big Picture which shows the central elements of accounting/controlling and their connections. "Management Accounting." deals with the contents of and the connections between balance sheet, profit/loss account, contribution margin costing, results statement, profit plan, finance plan and budgeted balance sheet. In the operating business these elements are often viewed at and analyzed in an isolated way, although they build on a common data basis, and although there is constant interaction between them. In "Management Accounting." the mentioned elements are reflected in an overall way under consideration of the existing connections between them. From the basic concept of presenting a comprehensive overview and concentrating on connections, the title "Management Accounting." has been derived - What should or must people who are managers in an enterprise, know about accounting or understand of accounting? Target groups of "Management Accounting." are students of economic/business courses in the framework of their basic education or in the framework of their introductory courses as well as students doing post-graduate programmes, and also managers in enterprises with practical experience - all of them facing the challenge of having to understand and to apply the linking connections of accounting/controlling in enterprises.
