Financial Basics for Nonprofit Managers, Third Edition "Tom McLaughlin is a proven master at making the daunting concepts of nonprofit financial management clear and engaging. This book is a superb introduction for new nonprofit executives, board members, and students. It is also an excellent refresher and reference for those of us who have been around the nonprofit sector for a while. It is well written, concise, and thought provoking." —J. Gregory Dees, Professor of the Practice of Social Entrepreneurship and

Nonprofit Management at Duke University's Fuqua School of Business, and coauthor of Enterprising Nonprofits and Strategic Tools for Social Entrepreneurs "A very practical guide to understanding and managing the finances of a nonprofit organization. As nonprofits strive for greater accountability, Tom McLaughlin's real-world examples and accessible style make this book indispensable for nonprofit executives, managers, and board members at organizations of any size." —Gordon J. Campbell,

President and CEO, United Way of New York City
"Tom McLaughlin's powerful book is far more than a useful tool. It provides the philosophical approach to instill strong stewardship and future viability to those in the world of nonprofits. He takes apart the complex issues of nonprofit stewardship just as Einstein translated relativity into a simple equation. Purely masterful." —Jim Mellor, Senior VP, Chief Financial Officer, YMCA of the USA

Accounting and Financial Reporting for Governmental and Nonprofit Organizations Berrett-Koehler Publishers

"The current nonprofit accounting standards have been in place for 20 years. Recently, the FASB nonprofit accounting committee (NAC) agreed to significantly update the standards for nonprofit financial reporting. These changes will be formalized and released to the industry in late 2015. In addition to walking readers line by line through the financial reports key to every nonprofit organization, this edition will include the new FASB standards with detailed a explanation of what they are and how to implement them correctly. The authors

have deep knowledge of the FASB standards and forthcoming changes and will share their insider knowledge with readers. The new standards will focus on: 1) Reporting model for the statement of activities, 2.Net asset classification, 3.Statement of cash flows, 4.Financial statement disclosures and 5. New footnote disclosures for improving financial statement relevance and understandability"--

The national income and

product accounts that underlie gross domestic product (GDP), together with other key economic data â€™price and employment statistics â€™ are widely used as indicators of how well the nation is doing. GDP, however, is focused on the production of goods and services sold in markets and reveals relatively little about important production in the home and other areas outside of markets. A set of satellite accounts â€™in areas

such as health, education, volunteer and home production, and environmental improvement or pollution â€™would contribute to a better understanding of major issues related to economic growth and societal well-being. Beyond the Market: Designing Nonmarket Accounts for the United States hopes to encourage social scientists to make further efforts and contributions in the analysis of

nonmarket activities and in corresponding data collection and accounting systems. The book illustrates new data sources and new ideas that have improved the prospects for progress. Basic Concepts John Wiley & Sons "This Seventh Edition is filled with authoritative advice on the financial reporting, accounting, and control situations unique to not-for-profit organizations. It contains discussions

of the accounting and reporting guidelines for different types of organizations, complete guidance on tax and compliance reporting requirements, illustrated explanations of various types of acceptable financial statements, and much more!"--Publisher's Website. Theory and Practice Irwin/McGraw-Hill Accounting for Governmental and Nonprofit Entities, 13e, by Wilson & Kattelus has been

streamlined and will contain complete, accurate, and up-to-date coverage of all facets of accounting for governmental and not-for-profit organizations. Intended for readers concerned with the preparation and analysis of financial statements and auditing of governmental and nonprofit entities. This text reflects all major changes to authoritative pronouncements from the GASB, FASB, FASAB, AICPA, GAO, and OMB that affect government and not-for-profit organizations. Copley's Essentials of Accounting for Governmental and Not-for-Profit Organizations, 13e is best suited for those professors whose objective is to provide more concise coverage than what is available in larger texts. The main focus of this text is on the preparation of external financial statements which is a challenge for governmental reporting. The approach in this

edition is similar to that used in practice.

Specifically, day to day events are recorded at the fund level using the basis of accounting for fund financial statements. Governmental activities are recorded using the modified accrual basis. The fund-basis statements are then used as input in the preparation of government-wide statements. The preparation of government-wide statements is presented in an Excel worksheet.

NEW for the 13th edition is McGraw-Hill Connect, a digital teaching and learning environment that saves students and instructors time while improving performance over a variety of critical outcomes.
