John Wiley & Sons
This book addresses the
complex intersection of secret
police operations and the

formation of the religious underground in communist-era Eastern Europe. It discusses how religious groups were perceived as dangerous to the totalitarian state whilst also being extremely vulnerable and yet at the same time very resourceful. It explores how this particular dynamic created the concept of the "religious underground" and produced an extremely rich secret police archival record. In a series of studies from across the region, the book explores the historical and legal context of secret police entanglement with religious groups, presents case

studies on particular anti-religious operations and groups, offers methodological approaches to the secret police materials for the study of religions, and engages in contemporary ethical and political debates on the legacy and meaning of the archives in post-communism.

Academic Literacy Development Theatre Communications Group Financial Accounting and Reporting is the most up to date text on the market. Now fully updated in its fourteenth edition, it includes extensive coverage of International

Accounting Standards (IAS) and International Financial Reporting Standards (IFRS). This market-leading text offers students a clear, well-structured and comprehensive treatment of the subject. Supported by illustrations and exercises, the book provides a strong balance of theoretical and conceptual coverage. Students using this book will gain the knowledge and skills to help them apply current standards, and critically appraise the underlying concepts and financial reporting methods. My Children! My Africa! (TCG Edition) Financial

Times/Prentice Hall

This edited book brings together an international cast of contributors to examine how academic literacy is learned and mastered in different tertiary education settings around the world. Bringing to the fore the value of qualitative enquiry through ethnographic methods, the authors illustrate in-depth descriptions of genre knowledge and academic literacy development in first and second language writing. All of the data presented in the chapters are original, as well as innovative in the field in terms of content and scope, and thought-provoking

regarding theoretical, methodological and educational approaches. The contributions are also representative of both novice and advanced academic writing experiences, providing further insights into different stages of academic literacy development throughout the career-span of a researcher. Set against the backdrop of internationalisation trends in Higher Education and the pressure on multilingual academics to publish their research outcomes in English, this volume will be of use to academics and practitioners interested in the fields of

Languages for Academic Purposes, Applied Linguistics, Literacy Skills, Genre Analysis and Acquisition and Language Education.

Drum Simon and Schuster

Understanding and Evaluating Research: A Critical Guide aims to sensitize students to the necessity of learning how not to defer to the mysterious authority of the experts, but rather to learn how to be a critical consumer of others' research, and to gain confidence in their ability to be producers of

research. Sue McGregor shows students how to be research literate, and how to find, critique and apply other people's scholarship. This textbook is grounded in a solid understanding of the prevailing research methodologies for creating new knowledge (philosophical underpinnings), which in turn dictate problem posing, theory selection, and research methods (tasks for sampling, collecting and analyzing data, and reporting

results).

Union List of Serials of the

California State University
Economic history states that
money replaced a bartering
system, yet there isn't any
evidence to support this
axiom. Anthropologist Graeber
presents a stunning reversal of
this conventional wisdom. For
more than 5000 years,
humans have used elaborate
credit systems to buy and sell
goods. Since the beginning of
the agrarian empires, humans
have been divided into debtors
and creditors. Through time,
virtual credit money was
replaced by gold and the
system as a whole went into
decline. This fascinating
history is told for the first time.

Principles (GAAP), International Financial Reporting Standards (IFRS), financial ratio analysis, equity accounting, investment strategies, financial statement preparation, and more Tracks to a typical intermediate accounting curriculum Expert information and real-world examples Other titles from Loughran: *Financial Accounting For Dummies* and *Auditing For Dummies* With the help of *Intermediate Accounting*

For *Dummies*, you'll discover the fast and easy way to take the confusion out of the complex theories and methods associated with a typical intermediate accounting course.

[Cost Accounting For Dummies](#)

Organizational leaders, governments and trade unions all agree that learning is fundamental to organizational and economic success. The question is how it should best be supported. The *Handbook of Work Based*

Learning delivers a compelling answer to this question. Learning needs to be based in the realities of organizational life. This unique, groundbreaking handbook provides a definitive guide to the set of strategies, tactics and methods for supporting work based learning. The three main parts of the Handbook, which focus in turn on strategies, tactics and methods, are written for both the learner and the professional developer alike. Each includes a description of the process (strategy,

tactic or method), provides examples of what it looks like in action, explains the benefits and the likely limitations and provides a set of operating hints for applying the process. Nothing has been neglected, so alongside detailed descriptions of what to do and how to do it, the authors have included the Declaration on Learning, created by thirteen of the major figures in the field of organizational learning, a section guiding you towards routes for gaining qualifications, along with a

well-researched set of references and further reading.
