Accounting principles. Accounting Period
Concept ? Accounting period refers to the
span of time at the end of which the
financial statements of an enterprise are
prepared, to know whether it has earned
profits or incurred losses during that period
and what exactly is the position of its
assets and liabilities at the end of that
period.

PRINCIPLES Revenue recognition principle
tells that revenue is to be recognized

associated with the items sold or
service provided is transferred, where the
amount can be estimated reliability
and when the amount is
recoverable. Accrual basis of accounting is
used in recognizing revenue which tells
that revenue is to be recognized ignoring
when the cash inflows occur. Examples 1. A
