Year after year, this book has immensely helped students in their comprehension of the subject and score good marks in examinations. It has been written specifically for the prescribed syllabus of Cost Accounting Paper of BCom (Hons) Semester IV of the University of Delhi and of School of Open Learning. Its basic features are the same as the mother book Cost Accounting—Principles and Practice, which is a UGC-recommended text for the last many years. Thus, it gives a thorough grounding in cost concepts, cost behaviour, and costing methods. The subject matter has been organized on ' first things first ' basis to sustain the interest of the students. Every discussion involving conceptual difficulties is immediately followed by a numerical example.

A Bibliography of Accounting Literature. Supplement Avichal Publishing Company

Accounting carries with its history a vast number of ideas which

have slowly developed along with it. This volume relates this history as it took place during the first three decades of the twentieth century in the United States. In particular it deals with those individuals who were for the most part responsible for it. It was these pioneers who recorded their observations of the actual workings of the myriad adaptations and new devices which had slowly eased their way into accounting theory and practice in the USA in the early twentieth century.
