Following a spate of high-profile financial scandals (including Enron, WorldCom, and Parmalat), the quality of financial information has come under increasing scrutiny. Many of the accounting standards being imposed on the profession by regulators and standard-setting bodies are now attracting criticism from the business community and the accountancy profession itself. In this book, Anthony Rayman traces a fundamental flaw in the conventional academic wisdom back to the nineteenth century, and proposes an alternative conceptual framework. He argues that effective corporate governance can be achieved, not by expensive and counterproductive regulations (like the US Sarbanes-Oxley Act and some International Accounting Standards), but by an enhanced accounting information system that exposes corporate management to the full rigour of market forces.

Accounting and an MBA. BPP Learning Media is an ACCA Official Publisher. It takes these areas to a higher level, putting into context the role of the accountant as a professional steward and adviser, who is responsible to the stakeholders of an organisation. It has five main sections: 1. Regulatory and ethical framework and current issues 2. Reporting the financial performance of entities 3. Group financial statements 4. Specialised entities 5. Analysis of the financial performance of entities
The main new topics introduced at this level relate to group accounts, but other topics are tested with a different emphasis and in more depth than at the Fundamentals Level. We provide material for both International and UK streams. The study text has been reviewed by the examiner and takes account of his advice on approaching the paper. Ethics, which have an impact on all aspects of financial reporting, are introduced at an early stage in the text, as is corporate social responsibility, so that students do not neglect these topics when covering the numerical areas. Accounting standards come next, combining revision with extension into more advanced areas. After a brief revision of basic groups, the more advanced consolidation topics are covered.
