Accounting Pearson Higher Ed This is the eBook of the printed book and may not include any media, website access codes, or print supplements that may come packaged with the bound book. Hospitality management students and professionals responsible for accounting functions at their property, or who aspire to a career in hospitality accounting, will benefit from this textbook. This textbook includes everything readers will need to gain a clear understanding of managerial accounting in a

hospitality setting. Chapters reflect new tax laws and the impact of the Sarbanes-Oxley Act, as well as the results of new survey research on updated practices in capital budgeting and leasing. Readers will learn to make effective choices based on the numbers that affect daily operations, develop on-target budgets and control cash flow, reach profit goals with the help of financial reports and other tools, and apply the latest uniform systems of accounts for hotels and restaurants.

Principles of Accounting is designed to meet the scope and sequence requirements of a two-semester accounting course that covers the fundamentals of financial and managerial accounting. This book is

specifically designed to appeal to both accounting and non-accounting majors, exposing students to the core concepts of accounting in familiar ways to build a strong foundation that can be applied across business fields. Each chapter opens with a relatable real-life scenario for today's college student. Thoughtfully designed examples are presented throughout each chapter, allowing students to build on emerging accounting

knowledge. Concepts are further reinforced through applicable connections to more detailed business processes. Students are immersed in the "why" as well as the "how" aspects of accounting in order to reinforce concepts and promote comprehension over rote memorization.
