story of Anna Delvey, a young

New York City—as told by the
former Vanity Fair photo editor
who got seduced by her

friendship and then scammed out of more than \$62,000. Rachel DeLoache Williams ' s new friend Anna Delvey, a self-proclaimed German heiress, was worldly and ambitious. She was also generous—picking up the tab for lavish dinners at Le Coucou, infrared sauna sessions at HigherDOSE, drinks at the 11 Howard Library bar, and regular workout sessions with a celebrity personal trainer. When Anna proposed an all-expenses-paid trip to Marrakech at the five-star La Mamounia hotel, Rachel jumped at the chance. But when Anna ' s credit cards mysteriously stopped working, the dream vacation quickly took a dark turn. Anna asked Rachel to begin fronting

costs—first for flights, then meals and shopping, and, finally, for their \$7,500-per-night private villa. Before Rachel knew it, more than \$62,000 had been charged to her credit cards. Anna swore she would reimburse Rachel the moment they returned to New York. Back in Manhattan, the repayment never materialized, and a shocking pattern of deception emerged. Rachel learned that Anna had left a trail of deceit—and unpaid bills—wherever she 'd been. Mortified, Rachel contacted the district attorney, and in a stunning turn of events, found herself helping to bring down one of the city 's most notorious con artists. With breathless pacing and in-

"The arrest of Mohammad Salameh, an illegal Palestinian immigrant, and three other

Arab men in connection with the 1993 World Trade Center bombing set off the first major Muslim scare in New York City history. It was in this atmosphere that the four defendants were indicted and stood trial for the terrorist act. I was a public defender with New York's Legal Aid Society at the time and by chance was assigned to represent the lead suspect, Salameh. The high-profile case snapped me out of my midcareer doldrums. Salameh was the ultimate underdog, and I was determined to ensure that he

received a fair trial before an impartial jury. Unfortunately, the key court actors judge, prosecutors, and defense lawyers failed to meet this challenge. Terrorism defendants are not predestined to receive unfair trials. If we are alert to the stress factors that can undermine impartiality, we can take measures to avoid transforming the potential for injustice into the actuality of an unfair proceeding." from the Preface This is the inside story of an epic courtroom showdown between terrorism and the American legal system.

On a snowy day in February 1993, a massive car bomb nearly toppled the World Trade Center. Four Middle Eastern men were quickly arrested and charged with the crime. At the time, Robert E. Precht was a staff attorney for the Legal Aid Society Federal Defender Division in Manhattan, handling routine cases as a public defender. He was surprised to be appointed defense attorney to the chief suspect, Mohammad Salameh, and challenged as never before by the media circus that this major terrorism trial would

prove to be. The events and personalities of the trial make for gripping reading, but equally compelling are Precht's observations on the forces arrayed against fair trials for accused terrorists." "Roman Law in the State of Nature offers a new interpretation of the foundations of Hugo Grotius' natural law theory. Surveying the significance of texts from classical antiquity, Benjamin Straumann argues that certain classical texts, namely Roman law and a specifically Ciceronian brand of Stoicism, were particularly influential for Grotius in the construction of his theory of natural law. The book asserts that Grotius, a

humanist steeped in Roman law, had many reasons to employ Roman tradition and explains how Cicero's ethics and Roman law - secular and offering a doctrine of the freedom of the high seas - were ideally suited to provide the rules for Grotius' state of nature. This fascinating new study offers historians, classicists and political theorists a fresh account of the historical background of the development of natural rights, natural law and of international legal norms as they emerged in seventeenth-century early modern Europe"--
