The aim of this new collection of essays is to engage in analysis beyond the familiar victor's justice critiques. The editors have drawn on authors from across the world — including Australia, Japan, China, France, Korea, New Zealand and the United Kingdom — with expertise in the fields of international humanitarian law, international criminal law, Japanese studies, modern Japanese history, and the use of nuclear, chemical and biological weapons. The diverse backgrounds of the individual authors allow the editors to present essays which provide detailed and original analyses of the Tokyo Trial from legal, philosophical and historical perspectives.

Parable of the Sower Zondervan

Officer Brinna Caruso has built a reputation at the precinct as the cop to call when a child goes missing. For Brinna, it's personal because she was once one of them. Brinna and her K-9 search and rescue dog, Hero, will stop at nothing to find a missing child, no matter the stakes. Detective Jack O'Reilly isn't ready to return to his homicide duties, after losing his wife to a drunk driver. He's on the downside of his career, and bent on revenge, when he's assigned as Brinna's partner. While on patrol, Jack struggles between his quest for personal justice and his responsibility to those around him, especially his partner. Skeptical of Jack's motives, Brinna isn't sure she can rely on her new partner, whose reckless abandon endangers the safety of those around him. But when a man surfaces with an MO similar to the criminal who abducted Brinna twenty years earlier, Brinna and Jack must cast aside previous judgments and combine efforts to catch the kidnapper, and finally allow Brinna the peace stolen from her as a child.

Arrested Justice Large Print Press

Even though youth crime rates have fallen since the mid-1990s, public fear and political rhetoric over the issue have heightened. The Columbine shootings and other sensational incidents add to the furor. Often overlooked are the underlying problems of child poverty, social disadvantage, and the pitfalls inherent to adolescent decisionmaking that contribute to youth crime. From a policy standpoint, adolescent offenders are caught in the crossfire between nurturance of youth and punishment of criminals, between rehabilitation and "get tough" pronouncements. In the midst of this emotional debate, the National Research Council's Panel on Juvenile Crime steps forward with an authoritative review of the best

available data and analysis. Juvenile Crime, Juvenile Justice presents recommendations for addressing the many aspects of America's youth crime problem. This timely release discusses patterns and trends in crimes by children and adolescents--trends revealed by arrest data, victim reports, and other sources; youth crime within general crime; and race and sex disparities. The book explores desistance--the probability that delinquency or criminal activities decrease with age--and evaluates different approaches to predicting future crime rates. Why do young people turn to delinquency?

Juvenile Crime, Juvenile Justice presents what we know and what we urgently need to find out about contributing factors, ranging from prenatal care, differences in temperament, and family influences to the role of peer relationships, the impact of the school policies toward delinquency, and the broader influences of the neighborhood and community. Equally important, this book examines a range of solutions: Prevention and intervention efforts directed to individuals, peer groups, and families, as well as day care-, school- and community-based initiatives. Intervention within the juvenile justice system. Role of the police. Processing and detention of youth offenders. Transferring youths to the adult judicial system. Residential placement of juveniles. The book includes background on the American juvenile court system, useful comparisons with the juvenile justice systems of other nations, and other important information for assessing this problem.

Breach of Honor Cambridge University Press

Homicide Detective Abby Hart's parents were murdered and the restaurant they owned set on fire while she was inside-- and only six years old. When an elderly woman with ties to Abby's past becomes a victim of a possible serial killer stalking elderly women in her jurisdiction, the only link is Luke Murphy, an irritating private investigator who saw a suspect flee the latest scene. Together they delve deep into the past to find out what happened-- and how they can right the injustices that have plagued them both for so long.

As a police officer in Table Rock, Oregon, Leah Radcliff puts her life on the line to help others every day. But at home, Leah's battling her own personal nightmare: Brad, her abusive husband, a fellow officer, celebrated hero, and beloved son of a powerful prominent family. Brad's violent outbursts and suspicious activities have left Leah physically and emotionally scarred, until one desperate action to put a stop to his abuse results in deadly consequences. Though public opinion seems ready to convict Leah, Officer Clint Tanner is one of the few to believe she acted in self-defense. As he works with Leah's attorney to produce the evidence they need, new truths about Brad's dark side come to light—and reveal a deep-rooted problem in Table Rock. There are some who have breached their sworn duty to serve and protect . . . and they'll do anything to keep their secret safe.

The Mushroom at the End of the World NavPress
In an extraordinary blend of narrative history, personal recollection, & oral testimony, the author presents a sweeping history of Asian Americans. He writes of the Chinese who laid tracks for the transcontinental railroad, of plantation laborers in the canefields of Hawaii, of "picture brides" marrying strangers in the hope of becoming part of the American dream. He tells stories of Japanese Americans behind the barbed wire of U.S. internment camps during World War II, Hmong refugees tragically unable to adjust to Wisconsin's alien climate & culture, & Asian American students stigmatized by the stereotype of the "model minority." This is a powerful & moving work that will resonate for all Americans, who together make up a nation of immigrants from other shores.

This is a print on demand edition of a hard to find publication. Explores whether sufficient data exists to examine the temporal and spatial relationships that existed in terrorist group planning, and if so, could patterns of preparatory conduct be identified? About one-half of the terrorists resided, planned, and prepared for terrorism relatively close to their eventual target. The terrorist groups existed for 1,205 days from the first planning meeting to the date of the actual/planned terrorist incident. The planning process for specific acts began 2-3 months prior to the terrorist incident. This study examined selected terrorist groups/incidents in the U.S. from 1980-2002. It provides for the potential to identify patterns of conduct that might lead to intervention prior to the commission of the actual terrorist incidents. Illustrations.

Police Chief Tess O'Rourke thought she'd taken care of her small town's drug problem last year. But now Rogue's Hollow residents are up in arms over a contentious vote on legalizing the sale of marijuana within city limits. And when an eighteen-year-old is found dead of a possible overdose, Tess wonders if the local pot farms might be involved and begins to fear that a new, deadlier drug supply chain has cropped up. As tempers flare and emotions boil over, Tess faces the possibility of losing the town's support. With her relationship to Sergeant Steve Logan on shaky ground, Tess could really use a friend, and she feels drawn to Pastor Oliver Macpherson's quiet presence. But the anger she holds over her father's death prevents her from embracing his faith and finding peace. Battling storms within and without, Tess is shocked when a familiar face from her past shows up in town to stir up more trouble. And his threats against Tess may prove lethal.

Management decisions on appropriate practices and policies regarding tropical forests often need to be made in spite of innumerable uncertainties and complexities. Among the

uncertainties are the lack of formalization of lessons learned regarding the impacts of previous programs and projects. Beyond the challenges of generating the proper information on these impacts, there are other difficulties that relate with how to socialize the information and knowledge gained so that change is transformational and enduring. The main complexities lie in understanding the interactions of social-ecological systems at different scales and how they varied through time in response to policy and other processes. This volume is part of a broad research effort to develop an independent evaluation of certification impacts with stakeholder input, which focuses on FSC certification of natural tropical forests. More specifically, the evaluation program aims at building the evidence base of the empirical biophysical, social, economic, and policy effects that FSC certification of natural forest has had in Brazil as well as in other tropical countries. The contents of this volume highlight the opportunities and constraints that those responsible for managing natural forests for timber production have experienced in their efforts to improve their practices in Brazil. As such, the goal of the studies in this volume is to serve as the foundation to design an impact evaluation framework of the impacts of FSC certification of natural forests in a participatory manner with interested parties, from institutions and organizations, to communities and individuals.

Lauren Olamina and her family live in one of the only safe neighborhoods remaining on the outskirts of Los Angeles. Behind the walls of their defended enclave, Lauren's father, a preacher, and a handful of other citizens try to salvage what remains of a culture that has been destroyed by drugs, disease, war, and chronic water shortages. While her father tries to lead people on the righteous path, Lauren struggles with hyperempathy, a condition that makes her extraordinarily sensitive to the pain of others. When fire destroys their compound, Lauren's family is killed and she is forced out into a world that is fraught with danger. With a handful of other refugees, Lauren must make her way north to safety, along the way conceiving a revolutionary idea that may mean salvation for all mankind. This ebook features an illustrated biography of Octavia E. Butler including rare images from the author's estate.

Black women in marginalized communities are uniquely at risk of battering, rape, sexual harassment, stalking and incest. Through the compelling stories of Black women who have been most affected by racism, persistent poverty, class inequality, limited access to support resources or institutions, Beth E. Richie shows that the threat of violence to Black women has never been more serious, demonstrating how conservative legal, social, political and economic policies have impacted activism in the U.S.-based movement to end violence against women. Richie argues that Black women face particular peril because of the ways that race and culture have not figured centrally enough in the analysis of the causes and consequences of gender violence. As a result, the extent of physical, sexual and other forms of violence in the lives of Black women, the various forms it takes, and the contexts within which it occurs are minimized—at best—and frequently ignored. Arrested Justice brings issues of sexuality, class, age, and criminalization into focus right alongside of questions of public policy and gender violence, resulting in a compelling critique, a passionate re-framing of

stories, and a call to action for change.

Birmingham, Alabama, has lost all power. Its streets are jammed with cars that won't start, its airport engulfed in flames from burning planes. All communications—cell phones, computers, even radios—are silent. Every home and business is dark. Is it a natural disaster . . . a terrorist attack . . . or something far worse? In the face of a crisis that sweeps an entire high-tech planet back to a time before electricity, the Branning family faces a choice. Will they hoard their possessions in order to survive—or trust God to provide as they share their resources with those around them? Yesterday's world is gone. Family and community are all that remain. And the outage is revealing the worst in some. Desperation can be dangerous when a killer lives among them. New York Times bestselling suspense author Terri Blackstock weaves a masterful what-if novel in which global catastrophe reveals the darkness in human hearts—and lights the way to restoration for a self-centered world. "Blackstock is absolutely masterful at bringing spiritual dilemmas to the surface and allowing readers to wrestle with them alongside her characters." —RT Book Reviews, 4.5 stars (of Dawn's Light)

What a rare mushroom can teach us about sustaining life on a fragile planet Matsutake is the most valuable mushroom in the world—and a weed that grows in human-disturbed forests across the northern hemisphere. Through its ability to nurture trees, matsutake helps forests to grow in daunting places. It is also an edible delicacy in Japan, where it sometimes commands astronomical prices. In all its contradictions, matsutake offers insights into areas far beyond just mushrooms and addresses a crucial question: what manages to live in the ruins we have made? A tale of diversity within our damaged landscapes, *The Mushroom at the End of the World* follows one of the strangest commodity chains of our times to explore the unexpected corners of capitalism. Here, we witness the varied and peculiar worlds of matsutake commerce: the worlds of Japanese gourmets, capitalist traders, Hmong jungle fighters, industrial forests, Yi Chinese goat herders, Finnish nature guides, and more. These companions also lead us into fungal ecologies and forest histories to better understand the promise of cohabitation in a time of massive human destruction. By investigating one of the world's most sought-after fungi, *The Mushroom at the End of the World* presents an original examination into the relation between capitalist destruction and collaborative survival within multispecies landscapes, the prerequisite for continuing life on earth.
