The world was told that the last Tsar of Russia and his family were butchered in the 'cellar massacre' at Ekaterinburg in 1918.

Yet diplomats and reporters did not believe it. And the longest court case of the century failed to explode Anna Anderson's claim to be the Tsar's youngest daughter, Grand Duchess Anastasia. Anthony Summers and Tom Mangold spent five years tracking down witnesses and long-lost documents. The search led to Moscow, Tokyo and Washington and their persistence finally paid off when they found a suppressed official dossier - the File on the Tsar. It shows that the public was fed a lie. The Romanovs did not all die at Ekaterinburg, but became pawns in an international power game, involving Lenin, the Kaiser, the British Royal Family and British Intelligence. And in London, over 80 years later, the cover-up goes on.

Questions related to the origin and history of the Basque language spark considerable interest, since it is the only surviving pre-Indo-European language in western Europe. However, until now, there was no readily available source in English providing answers to these questions or giving an overview of past and current research in this area. This book is intended to partly fill this void. The book contains both state-of-the-art papers which summarize our knowledge about particular areas of Basque historical linguistics, and articles presenting new hypotheses and points of view based on hard evidence and careful analysis. All contributors to this volume have demonstrated expertise in the topic within Basque historical linguistics that their chapter addresses. Two classical articles by the late Luis Michelena are included in English translation. In addition, the book includes studies on diachronic phonology, morphology and syntax. The relation of Basque to other languages is also investigated in a couple of chapters.

We ' ve all taken a dislike to someone for no real reason. But few of us nurture this hatred like the narrator of "Moon-Face". The target of his irrational malice is a man named John Claverhouse. With cold precision, the narrator sets to planning the man ' s downfall. Why he has this urge, he can ' t explain. But he knows he ' ll feel immense satisfaction when John Claverhouse is made to suffer. In this macabre little tale, Jack London pinpoints a very common but unpleasant human trait. And then takes it to a horrifying extreme. This short story collection also includes "All Gold Canyon", which was adapted as part of the Netflix anthology movie "The Ballad of Buster Scruggs". Jack London (1876 – 1916) was one of the first American writers to achieve worldwide celebrity. He did so with rugged adventure stories set in forbidding landscapes. And heroes who survive by embracing their most primal instincts. His breakthrough best seller was "The Call of the Wild". Inspired by his time in the Klondike Gold Rush, this hard-hitting novel is told from the perspective of a sled dog named Buck. It ' s inspired many adaptations, including a big-budget movie starring Harrison Ford. Among London ' s other notable works are "White Fang", also featuring a canine protagonist, as well as "The Sea-Wolf", "Martin Eden" and "The Iron Heel".

Dissatisfied with the explanations of previous researchers, Richard Andrews and Paul Schellenberger applied mathematical logic to the enduring mystery of Rennes-le-Château and the "treasure" alleged to be buried there. Beginning with a healthy skepticism, they assumed the enigma would wither under scrutiny. The quest began with an investigation into the activities of a group of 19th-century priests, but as the trail was pursued, it became apparent that the mystery ' s scope stretched far beyond the mountains of southern France. A series of paintings, maps,

and tombstones pointed to one very specific location. The authors combined their knowledge of archaeology, theology, and surveying to produce a startling account of what they believe to be the true events surrounding the burial of Jesus.
