"Political correctness" involves much more than a restriction of speech. It represents a broad cultural transformation, a shift in the way people understand things and organize their lives; a change in the way meaning is made. The problem addressed in this book is that, for reasons the author explores, some ways of making "meaning" support the creation and maintenance of organization, while others do not. Organizations are cultural products and rely upon psychological roots that go very deep. The basic premise of this book is that organizations are made up of the rules, common understandings, and obligations that "the father" represents, and which are given meaning in the oedipal dynamic. In anti-oedipal psychology, however, they are seen as locuses of deprivation and structures of oppression. Anti-oedipal meaning, then, is geared toward the destruction of organization.

'Beautifully written, comforting and utterly uplifting, Lucy Coleman's stories are the perfect tonic when life is a little grey.' Holly Martin Seren Maddison left behind a rainy Britain to follow her dreams and live and work in Lisbon. The vibrancy, the beautiful scenery and the sunshine, made her fall in love and she knew, instantly, that it would be her forever home. International artist Reid Henderson has homes in Lisbon and London. Following his painful divorce, his dream is to turn his luxurious home into an art school and gallery. When Seren and Reid first meet there is an instant attraction, but they are both people who have been hurt, and each have dreams that are so far apart, they aren't even on the same page. Can they enjoy one summer of happiness together, as life bestows a gift of memories to cherish for the rest of their lives? Or is their destiny to chart a path into the future, in a home where dreams can come true?

Seren and Reid may be about to discover that love is as much about what you are prepared to give up, as what you are prepared to keep hold of. Let Lucy Coleman transport you away to sun-drenched Portugal where true love really can conquer all, and home is where the heart is. Perfect for all fans of Trisha Ashley, Holly Martin and Sue Moorcroft. What readers say about Lucy Coleman: 'A new Lucy Coleman novel never fails to brighten up my day.' 'Lucy Coleman is quickly becoming one of my favourite authors... She seems to have a way of making you feel as though you've been transported into her book and you're right there experiencing it all with the characters.' 'A warm and emotional story that will really warm your heart.' 'I love Lucy Coleman's books. She always delivers such real characters, and her stories keep you turning the pages non-stop, but what I love best is the way she whisks you off into another world.'

JACK LONDON (1876-1916), American novelist, born in San Francisco, the son of an itinerant astrologer and a spiritualist mother. He grew up in poverty, scratching a living in various legal and illegal ways -robbing the oyster beds, working in a canning factory and a jute mill, serving aged 17 as a common sailor, and taking part in the Klondike gold rush of 1897. This various experience provided the material for his works, and made him a socialist. "The son of the Wolf" (1900), the first of his collections of tales, is based upon life in the Far North, as is the book that brought him recognition, "The Call of the Wild" (1903), which tells the story of the dog Buck, who, after his master's death, is lured back to the primitive world to lead a wolf pack. Many other tales of struggle, travel, and adventure followed, including "The Sea-Wolf" (1904), "White Fang" (1906), "South Sea Tales" (1911), and "Jerry of the South Seas" (1917). One of London's most interesting novels is the semi-autobiographical "Martin Eden" (1909). He also wrote socialist treatises, autobiographical essays, and a good deal of journalism.

Belief in the devil and other evil spirits of the Christian tradition is a topic that has been widely discussed in recent years. Since the release of movies such as 'Rosemary's Baby' and 'The Exorcist', more people are wondering, Is Satan really dead? Is there such a phenomenon as obsession or possession? In 'The Devil, Demonology, and Witchcraft', Henry Ansgar Kelly postulates his belief that the existence of evil spirits is not probable and suggests that Christians would be better off acting on the assumption that they do not exist. To prove his claim, the author sets forth a history and analysis of the impact of demonological traditions developed within Judaism and Christianity over the centuries. He then considers the incorporation of these notions into early Christian teaching with the resulting demonological doctrines of witchcraft, possession, and temptation. Kelly's conclusion is that Satan is dead, and demonology should be eliminated from Christian dogma since, according to his thesis, these manifestations in the Bible reflect the beliefs of local cultures and not divine revelation. The present edition has been substantially revised and updated by the author to include an evaluation and critique of 'The Exorcist', wherein Kelly challenges William Peter Blatty's facts of the alleged possession in 1949 on which 'The Exorcist' is based.

This textbook includes exposure to plant & shop layout, industrial safety, engineering materials and their heat treatment, bench work and fitting, smithy and forging, sheet metal work, wood and wood working, foundry, welding, mechanical working and machine shop practices. A greater stress has been laid on pictorial representation of various hand tools, operators and machine tools rather than giving exhaustive write up on various topics. The matter has been presented in a structured manner and in an easy to understand language, which can be mastered easily by students of various disciplines. Attention has also been paid to the fact that the text as well as the diagrams can be easily reproduced by the students in theory examinations. The book will be useful for the students of engineering, supervisors, tool room personnel and operators working in manufacturing and other industries.

In contemporary philosophy, substantive moral theories are typically classified as either consequentialist or deontological. Standard consequentialist theories insist, roughly, that agents must always act so as to produce the best available outcomes overall. Standard deontological theories, by contrast, maintain that there are some circumstances where one is permitted but not required to produce the best overall results, and still other circumstances in which one is positively forbidden to do so. Classical utilitarianism is the most familiar consequentialist view, but it is widely regarded as an inadequate account of morality. Although Professor Scheffler agrees with this assessment, he also believes that consequentialism seems initially plausible, and that there is a persistent air of paradox surrounding typical deontological views. In this book, therefore, he undertakes to reconsider the rejection of consequentialism. He argues that it is possible to provide a rationale for the view that agents need not always produce the best possible overall outcomes, and this motivates one departure from consequentialism; but he shows that it is surprisingly difficult to provide a satisfactory rationale for the view that there are times when agents must not produce the best possible overall outcomes. He goes on to argue for a hitherto neglected type of moral conception, according to which agents are always permitted, but not always required, to produce the best outcomes.
