On Monday, Apple introduced updated 13-and 15-inch MacBook Air models powered by the company's newest M3 CPU. The new laptops, according to Apple, have 18 hours of battery life, quicker Wi-Fi, and 1080p cameras that are crisper than before. The latest MacBook Air computers, according to Apple, include an improved 1080p camera, quicker Wi-Fi, and a battery life of up to 18 hours. There has been no change to the design from previous versions. Unlike previous processors, the new M3 chip supports two external monitors, which is a significant gain. For a laptop to have two displays, the lid must be closed. If it's open, only one screen will be functional. With the growth in our reliance on information systems and computer science, information modeling and knowledge bases have become a focus for academic attention and research. The amount and complexity of information, the number of levels of abstraction and the size of databases and knowledge bases all continue to increase, and new challenges and problems arise every day. This book is part of the series Information Modelling and Knowledge Bases, which concentrates on a variety of themes such as the design and specification of information systems, software engineering and knowledge and process management. Attention is also paid to theoretical disciplines including cognitive science, artificial intelligence, logic, linguistics and analytical philosophy. Selected papers cover many areas of information modeling and knowledge bases, namely theory of concepts, database semantics, knowledge representation, software engineering, WWW information management, context-based information retrieval, ontological technology, image databases, temporal and spatial databases, document data management, process management, cultural modeling, social networks, personalization, interfaces, data mining and many others. The book will be of interest to all those involved in research and application in these academic areas.
