Sacred Natural Sites are the world's oldest protected places. This book focuses on a wide spread of both iconic and lesser known examples such as sacred groves of the Western Ghats (India), Sagarmatha /Chomolongma (Mt Everest, Nepal, Tibet - and China), the Golden Mountains of Altai (Russia), Holy Island of Lindisfarne (UK) and the sacred lakes of the Niger Delta (Nigeria). The book illustrates that sacred natural sites, although often under threat, exist within and outside formally recognised protected areas, heritage sites. Sacred natural sites may well be some of the last strongholds for

building resilient networks of connected landscapes. They also form important nodes for maintaining a dynamic socio-cultural fabric in the face of global change. The diverse authors bridge the gap between approaches to the conservation of cultural and biological diversity by taking into account cultural and spiritual values together with the socio-economic interests of the custodian communities and other relevant stakeholders. Refined and streamlined, SYSTEMS ANALYSIS AND

DESIGN IN A CHANGING

WORLD, 7E helps students develop the conceptual, technical, and managerial foundations for systems analysis design and implementation as well as project management principles for systems development. Using case driven techniques, the succinct 14-chapter text focuses on content that is key for success in today's market. The authors' highly effective presentation teaches both traditional (structured) and object-oriented (OO) approaches to systems analysis and design. The book highlights use cases, use diagrams, and use case descriptions required for a modeling approach, while demonstrating their application to traditional, web development, object-oriented, and service-oriented architecture approaches. The Seventh Edition's refined sequence of topics makes it easier to read and understand than ever.

Regrouped analysis and design chapters provide more flexibility in course organization.

Additionally, the text's running cases have been completely updated and now include a stronger focus on connectivity in applications. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

An Amazon #1 Best-Seller! Named the #1 Soccer Book by Football.com. Named a Top 5 Book of the Year by the NSCAA Soccer Journal! Soccer IQ is the first book for soccer PLAYERS! In a world saturated with books about how to coach soccer, Dan Blank finally gives players a book on how to think it. Standing on two decades of collegiate coaching experience, Blank has catalogued soccer's most common mistakes and provides simple, connect-the-dots solutions to help players solve their soccer problems. Soccer IQ is soccer's first text book for players; an almanac of smarter soccer decisions intended to flatten out the learning curve. It covers everything from hunting rebounds to the value of the toe-ball; from playing in the rain to the world's dumbest foul. Blank tells his story from the familiar and humorous voice of a coach who has endured years of stress at the hands of his players. Written in plain-spoken language, Soccer IQ is an easy read and a quick-fix to the most

common yet critically important soccer problems. Includes a bonus chapter on the college recruiting process. " Finally someone wrote this book! If every soccer player read Soccer IQ, every coach would be a lot happier." Mark Francis - Head Coach University of Kansas "Dan Blank has just written soccer's first definitive text book." Colin Carmichael - Head Coach Oklahoma State University "This book has immediately become required reading for my team. I'll take 30 copies." Steve Nugent - Head Coach UNC-Greensboro "Soccer IQ may be the best practical soccer book I have ever read. There's no fluff. Just nuts and bolts principles that we teach every day. It'll solve a lot of your soccer problems." Steve Holeman - Head Coach University of Georgia

This unique and timely book follows the experiences of four Arabic teenagers, their families and their community, focusing on the role of literacy in their daily lives and the differences between home and school. The author looks at the conflict between expectations and practices at school and in the home, arguing that problems are inevitable where class and cultural differences exist. Emerging themes include: how literacy practices in the community are undergoing rapid change due to global developments in technology how the patterns of written and spoken language in

English and Arabic in the home are linked with social practices in logical and coherent ways how many of the family practices that differ from school culture and language become marginalised. Built around these insightful case studies yet grounded in theory, this book is of immediate relevance to teachers working in multicultural contexts and students and lecturers in language/literacy or on TESOL courses.

This study investigates social and environmental impacts caused by an ecolabeled notebook along its entire life cycle. In order to analyse the divers effects of the laptop, a social life cycle assessment and an environmental life cycle assessment were performed in parallel. Both assessments together provide a holistic overview of positive and negative impacts in regard to social and environmental sustainability. This book contains the complete final report written by

GreenDeltaTC on behalf of the Belgian Federal Public Planning Service Sustainable Development. It comprises the methodological background, the social inventory, process modifications with regard to the environmental inventory, and detailed results of the impact assessment phase. Further, a newly developed social impact assessment method is presented and applied. In addition, recommendations on company and policy level were derived.
