Edmund Fung examines an important phase of development in China's long quest for democracy. The momentum for democracy, he contends, grew strongest between 1929 and 1949 through civil opposition to the one-party rule of the Guomindang. The Nationalist era contained the germs of a reformist, liberal

order, the legacy of which can be seen in the pro-democracy movement of the post-Mao period. This book fills an important gap in the historical literature on Chinese intellectuals between May Fourth radicalism and the Chinese Communists' accession to power.

Greg Sheehan, one of Australia's most beloved and innovative percussionists, has dedicated a lifetime to performing, teaching and passionately exploring diverse musical forms. Over several decades, he has developed his own distinct rhythmic language,

which has been enthusiastically embraced by a growing legion of musicians, artists and educators alike. Greg uses numbers and a distinctive graphic style as key tools for creation, practice, and translation between different styles and traditions. Centred around rhythm, his expertise branches into areas such as composition, melodic sequencing, and development of phrasing and special techniques that can be easily adapted to any instrument. His methods are equally brilliant as a fun way to engage children in high-level learning through social, mathematic and musical play, and has also been integrated as a choreographic device by professional dancers in several countries. Greg's

incredible rhythmic resources are now available in the form of a beautiful graphic book. The Rhythm Diaries is packed with inspiration, techniques and ideas to strengthen the roots and sweeten the fruits of your creativity. This book explores the significance of silence within and beyond pedagogical contexts. Silence is a complex and multidimensional phenomenon for everyday life: since schools mirror society, it is also significant in education. While silence can be experienced in a multitude of different ways, the author reflects on whether silence itself can bear a message: is there an aspect of dialogue in silence, or is it a language all of its own? This book examines a variety of silences essential

for education, examining such topics as silence and aspects of power, silent students, and the relationship between listening and silence. Drawing on a range of empirical data, the author elucidates the significance of silence in pedagogical contexts. **Warm Beer, Lousy Food** A & C Black

Guy Bourdin, who died in 1991, was a legend in the world of fashion photography. He was the most radical and audacious photographer of his

generation but his reputation has been surrounded in secrecy - he rarely allowed his photographs to appear outside the pages of French Vogue. No book of his work has previously been published. His estate was frozen by the courts until 1997, after which his son, Samuel, gained control of his work as a result of which this long-awaited book can be published. Bourdin was originally a painter and a friend of Man Ray. His fashion photographs began to incorporate his surrealist influences. Fashion photography became an arena for his personal obsessions. The results are as shocking and astonishing as any commercial photograph ever published. They were executed meticulously.

Despite his intense eroticism, subversion and, as Cecil Beaton described, 'his grotesque little gamines', Beaton referred to him in 1975 as 'unquestionably the most interesting fashion photographer in Paris today'. His work was said to have represented 'the look of an era - glamorous, hard-edged, cleverly spiced with vulgarity.. .rich with implied narratives and strong erotic undercurrents' To Live Is Christ Potomac Books, Inc. This book views Samsung Electronics in terms of corporate life cycle as well as product portfolio and strategy. It also examines the issues Samsung faces as it proceeds further into the 21st century. Written from the perspective of an experienced commentator on Korean and global business, this book presents not simply a narrative or an adulatory and

uncritical account of Samsung's rise, but a considered analysis of the secrets of success that both business students and CEOs will want to read and consider applying to their own companies. Samsung Rising BookRix An explosive expose? of Samsung that "reads like a dynastic thriller, rolling through three generations of family intrigue, embezzlement, bribery, corruption, prostitution, and other bad behavior" (The Wall Street Journal). LONGLISTED FOR THE FINANCIAL TIMES AND MCKINSEY BUSINESS BOOK OF THE YEAR AWARD Based on years of reporting on Samsung for The Economist, The Wall Street Journal, and Time, from his base in South Korea, and his countless sources inside and outside the company, Geoffrey Cain offers a penetrating look behind the curtains of the biggest company nobody in America knows. Seen for decades in tech circles as a fast follower rather than

an innovation leader, Samsung today has grown to become a market leader in the United States and around the globe. They have captured one quarter of the smartphone market and have been pushing the envelope on every front. Forty years ago, Samsung was a rickety Korean agricultural conglomerate that produced sugar, paper, and fertilizer, located in a backward country with a third-world economy. With the rise of the PC revolution, though, Chairman Lee Byung-chul began a bold experiment: to make Samsung a major supplier of computer chips. The multimillion-dollar plan was incredibly risky. But Lee, wowed by a young Steve Jobs, who sat down with the chairman to offer his advice, became obsessed with creating a tech empire. And in Samsung Rising, we follow Samsung behind the scenes as the company fights its way to the top of tech. It is one of Apple's chief suppliers of technology critical to the iPhone, and its own Galaxy phone outsells the iPhone. Today, Samsung employs over 300,000 people (compared to Apple's 80,000 and Google's 48,000). The company's revenues have grown more than forty times from that of 1987 and make up more than 20 percent of South Korea's exports. Yet their disastrous recall of the Galaxy Note 7, with numerous reports of phones spontaneously bursting into flames, reveals the dangers of the company's headlong attempt to overtake Apple at any cost. A sweeping insider account, Samsung Rising shows how a determined and fearless Asian competitor has become a force to be reckoned with. The Semiconductor Industry iUniverse A Royal Commission was formed to take into account public concerns regarding the electoral process. It conducted a number of public opinion surveys to assess citizen attitudes regarding electoral reform. This document contains the results of these consultations. It discusses Canadians' political values; Canadians' beliefs about politicians, parties, and money; attitudes about the representative process, electoral finance, and electoral communication; and an overall evaluation of electoral procedures. It includes tables on the above topics. Silence within and beyond Pedagogical Settings Longman Scientific and Technical In To Live Is Christ, best-selling author Beth Moore travels on a spiritual odyssey through the life of one of Christianity's most fervent journeymen, the apostle Paul, tracing his story from childhood to martyrdom. Proclaiming his faith as a benchmark in New Testament Scripture, Beth writes, "I have

accepted many of Paul's words as a personal challenge. 'I want to know Christ' has become my plea. 'To live is Christ and to die is gain' has become my hope. And to borrow his words once more, 'Not that I have already obtained all this . . . but I press on.'" Paul's undying passion for Christ continues to inspire and challenge those with a deep spiritual hunger for the things of God. Readers will be greatly refreshed by the obvious mercy of God that causes those who have failed him to repent and serve him wholeheartedly and effectively.

The line began forming after eight o'clock. Sal, short and heavy-set, kept everyone busy. Neat, in a white shirt and sports jacket, with his grey fedora cocked to the side, his crooked grin made you smile. Without warning the heavy door would swing open and the waiters would come outside to join him. They were dressed in pajamas or prison garb, with hats and horns, and were there to warm up the crowd. Some in line expected this, others were shocked. The pink polka dot building should have been a warning. Complete strangers in line became chummy, exchanging stories they had heard; toilet seat covers to serve drinks on,

microphones in the ladies room, toilet paper for napkins. Most had brought their friends there to be roasted. The line of people varied in age. They all dressed casually because they'd heard you could get a pie in the face or a squirt in the eye. The club's routines were blue in color, but harmless. If you were lucky you might see a "Balls for the Queen" or a "Singing beer." The price was always right for a good time and Warm Beer and Lousy Food was the place to be.
