Nacha Operating Rules | Nacha

ACH. ACH operations pose a variety of risks including credit, liquidity, and operational. NACHA and the two national ACH operators (the Reserve Banks and EPN) have clear expectations that financial institutions will manage these risks, particularly when the institutions engage in riskier ACH activities. In recent years, the ACH operators have begun to offer a variety of risk management tools to help control ACH risks.

Editorial analysis IAS

This Rule will improve the overall quality of the ACH Network by reducing the incidence of returned Entries and the associated costs, both financial and reputational, that such returned Entries impose on the ACH Network and its participants. The approach to reducing risk with this Rule is multi-fold, as described by the various topics below.

RISK ASSESSMENT AND AUDIT - CU*Answers
 Determine if management has performed a comprehensive risk assessment identifying threats and inherent risks within ACH. The assessment should be reviewed and updated periodically or as services change. NACHA rules require each participating financial institution to conduct an assessment of the risks related to ACH activity, and implement a risk management program on the basis of such an assessment.

ACH Risk Assessment - Xtend
 ACH and RDC Risk Assessments As

technology and payments products evolve, so do fraud schemes, operational challenges, and regulatory requirements. Because of this ever-changing payments landscape, it is critical that financial institutions understand their risks and build a management program to control them.

Automated Clearing House Association (“ NACHA ”) Rule on Section 1, -Party Service Providers to, as appropriate, update security policies, procedures and systems related to the life cycle of ACH transactions, specifically the initiation, processing and storage of ACH entries.

The core of this risk assessment is as follows: 1.

Risk Management | Nacha

specifically the initiation, processing and storage of ACH entries. The core of this risk assessment

is as follows: 1. Assessing the nature of risks associated with ACH activity. 2. Performing appropriate due diligence. 3. Having adequate management, information and reporting systems to monitor and mitigate risk.

ACH Risk Assessment Standards Manual

The Guidelines expands on the Rules, providing complete discussions of each ACH Network participant type and its role and responsibilities, detailed overviews of the Standard Entry Class Codes and use-case examples in special topic areas, such as Third-Party Service Providers.

ACH Review Procedures - Pages

Designed to minimize financial losses and help your institution operate more efficiently, EPCOR's ACH Risk Assessments consist of a comprehensive evaluation of your ACH operations against a menu of potential risk vulnerabilities, regulatory guidance and industry best practices. EPCOR's knowledgeable Accredited ACH Professionals can help assess your

risk profile, identify areas of potential risk and provide suggestions for improving your ACH Risk Management program.

Nacha

At a high level, the new guidelines redefine hypertension as blood pressure >130/80 and recommend starting anti-hypertensives based on ASCVD risk score of >10%. This will be a significant change from JNC-8. Please let us know if you would like us to incorporate the new guidelines into cvriskcalculator.com by completing this 1-question survey.
