Daisy Ashford's 'The Young Visitors or, Mr. Salteena's Plan' is a unique artifact of literary history, penned by the author at the tender age of nine. The novella offers a charming and unfiltered glimpse into the social mores and romantic aspirations of Edwardian England, as seen through the eyes of its child author. Its narrative is delivered with a simplicity and directness that belies the subtlety of its social satire, imbued with an unintentional comedic flair that has endeared it to readers for over a century. Ashford's unschooled spelling and grammatical idiosyncrasies have been carefully preserved in the DigiCat Publishing edition, honoring the work's authenticity and original charm. Daisy Ashford wrote 'The Young Visitors' in the early 20th century, and its subsequent publication in 1919, when Ashford was an adult, fascinated audiences with its juvenile perspective on adult themes of love and class. The novel's portrayal of the innocent yet astute Mr. Salteena and his navigation through the complexities of high society offers a rare, unadulterated look into the imagination of a child, her perception of the adult world, and her understanding of nuanced human relationships. 'The Young Visitors' is highly recommended for

those with an interest in literary curiosities, the representation of social classes in Edwardian fiction, or the development of children's writing. Readers looking for a whimsical, authentic, and historically significant work will find delight and educational value in Ashford's creation. This edition by DigiCat Publishing is a testament to the continued relevance and fascination of childhood narratives in the canon of English literature.
