Practicing Critical Oral History: Connecting School and Community provides ways and words for educators to use critical oral history in their classroom and communities in order to put their students and the voices of people from marginalized communities at the center of their curriculum to enact change. Clearly and concisely written, this book offers a thought-provoking overview of how to use stories from those who have been underrepresented by dominant systems to identify a critical topic, engage with critical processes, and enact critical transformative-justice outcomes. Critical oral history both writes and rights history, so that participants—both interviewers and narrators—in critical oral history projects aim to contextualize stories and make the voices and perspectives of those who have been historically marginalized heard and listened to. Supplemented throughout with sample activities, lesson-plan outlines, tables, and illustrative figures, Practicing Critical Oral History: Connecting School and Community is an essential resource for all those interested in integrating the techniques of critical oral history into an educational setting.

"The binding thread throughout this edited collection of Ambrose Bierce's letters is the argument that Bierce has too often vilified as a cynical misanthrope. Joshi and Schultz believe that Bierce's human side has been ignored by scholars, and they work here to rectify this oversight. The importance of this collection is underscored by the fact that no collection of Bierce's letters has been published since 1922. This selection represents a sampling of nearly one-half million words of Bierce's correspondence, which Joshi and Schultz are the first to gather and transcribe." "The letters reveal many sides of Bierce that he deliberately concealed in his literary work: the caring father who keenly felt the deaths of his two sons and took constant interest in the welfare of his only daughter; the literary giant of San Francisco who gathered around him a substantial cadre of disciples whose work he encouraged and meticulously criticized; the vigorous castigator of chicanery, hypocrisy, and injustice wherever he saw it; and the author of coyly flirtatious letters to a number of female correspondents. For the first time, a well-rounded picture of Bierce the man and writer emerges

in his own words. The volume ends chillingly with Bierce's last surviving letter, written from Chihuahua, Mexico, on December 26, 1913, which concludes: "As for me, I leave here tomorrow for an unknown destination." Bierce was never heard from again." "The letters have been scrupulously edited from manuscript sources and exhaustively annotated to elucidate obscure historical, literary, and other references."--BOOK JACKET. The Texas Centennial of 1936, commemorated by statewide celebrations of independence from Mexico, proved to be a powerful catalyst for the formation of a distinctly Mexican American identity. Confronted by a media frenzy that vilified "Meskins" as the antithesis of Texan liberty, Mexican Americans created literary responses that critiqued these racialized representations while forging a new bilingual, bicultural community within the United States. The development of a modern Tejana identity, controversies surrounding bicultural nationalism, and other conflictual aspects of the transformation from mexicano to Mexican American are explored in this study. Capturing this fascinating aesthetic and political rebirth, *Border Renaissance* presents innovative readings of important novels by Mar í a Elena Zamora O'Shea, Am é rico Paredes, and Jovita Gonz á lez. In addition, the previously overlooked literary texts by members of the League of United Latin American Citizens (LULAC) are given their first detailed consideration in this compelling work of intellectual and literary history. Drawing on extensive archival research in the English and Spanish languages, John Mor á n Gonz á lez revisits the 1930s as a crucial decade for the vibrant Mexican American reclamation of Texas history. *Border Renaissance* pays tribute to this vital turning point in the Mexican American struggle for civil rights.

The Christian reformer; or, Unitarian magazine and review [ed. by R. Aspland]. Zondervan "What Waley did create is literary art of extraordinary beauty that brings to life in English the world Murasaki Shikibu imagined. The beauty of his art has not dimmed, but like the original text itself retains the power to move and enlighten."—Dennis Washburn, from his foreword *Centuries before Shakespeare, Murasaki Shikibu's The Tale of Genji* was already acknowledged as a classic of Japanese literature. Over the past century, this book has gained worldwide acceptance as not only the world's first novel but as one of the greatest works of literature of all time. The hero of the tale, Prince Genji, is a shining example of the Heian-era ideal man—accomplished in poetry, dance, music, painting, and, not least of all to the novel's many plots, romance. *The Tale of Genji* and the characters and world it depicts have influenced Japanese culture to its very core. This celebrated translation by Arthur Waley gives Western readers a very genuine feel for the tone of this beloved classic. This edition contains the complete Waley translation of all six books of *The Tale of Genji* and also contains a new foreword by Dennis Washburn with key insights into both the book and the importance of this translation for modern readers.

This volume, Wright's eleventh book of poetry, is a vivid, contemplative, far-reaching, yet wholly plain-spoken collection of moments appearing as lenses through which to see the world beyond our moments. Chickamauga is also a virtuoso exploration of the power of concision in lyric poetry--a testament to the flexible music of the long line Wright has made his own. As a reviewer in *Library Journal* noted: "Wright is one of those rare and gifted poets who can turn thought into music. Following his self-prescribed regimen of purgatio, illuminatio, and contemplatio, Wright spins one lovely lyric after another on such elemental subjects as sky, trees, birds, months, and seasons. But the real subject is the thinking process itself and the mysterious alchemy of language: 'The world is a language we never quite understand.'"

Investigates how depictions of young people in late-nineteenth- and early-twentieth-century America use artifice to destabilize pre-existing narratives of truth, news, and fact. *Cub Reporters* considers the intersections between children ' s literature and journalism in the United States during the period between the Civil War and World War I. American children ' s literature of this time, including works from such writers as L. Frank Baum, Horatio Alger Jr., and Richard Harding Davis, as well as unique journalistic examples including the children ' s page of the *Chicago Defender*, subverts the idea of news. In these works, journalism is not a reporting of fact, but a reporting of artifice, or human-made apparatus—artistic, technological, psychological, cultural, or otherwise. Using a methodology that combines approaches from literary analysis, historicism, cultural studies, media studies, and childhood studies, Paige Gray shows how the cub reporters of children ' s literature report the truth of artifice and relish it. They signal an embrace of artifice as a means to access individual agency, and in doing so, both child and adult readers are encouraged to deconstruct and create the world anew. Paige Gray is Professor of Liberal Arts at the Savannah College of Art and Design.

The texts are extensively annotated, with notes both explaining unfamiliar words and providing cultural and historical contexts.

PSALMS, Part 2, and LAMENTATIONS is Volume XV of The Forms of the Old Testament Literature, a series that aims to present a form-critical analysis of every book and each unit in the Hebrew Bible. Fundamentally exegetical, the FOTL volumes examine the structure, genre, setting, and intention of the biblical literature in question. They also study the history behind the form-critical discussion of the material, attempt to bring consistency to the terminology for the genres and formulas of the biblical literature, and expose the exegetical procedures so as to enable students and pastors to engage in their own analysis and interpretation of the Old Testament texts. This volume completes Erhard Gerstenberger's widely praised discussion of the psalms literature begun in Volume XIV, and includes as well an admirable study of the book of Lamentations. Gerstenberger interprets the different kinds of songs and prayers that comprise the book of Psalms in light of their sociohistorical settings and provides a concise formal and structural analysis of each biblical text based on an illuminating comparison with other ancient Near Eastern prayers and hymns. Seeing the biblical writings in relation to the social, cultic, religious, and theological conceptions of Israel's neighboring peoples allows contemporary readers to better grasp the purpose and spiritual meaning of the psalms and Lamentations to the Jewish community that composed them.

The urgency to create equity in schools has never been greater, especially since legislators are considering the re-authorization of No Child Left Behind as a means to eliminating the achievement gap. Studies continue to show that increased standards, testing, and accountability have simply maintained the status quo. In response, this book proposes alternative ways of addressing these educational inequities, taking an interdisciplinary approach to understanding the complex historical, social, and global issues that stand in the way of ensuring that all students have access to literacy - issues that policy makers and educators can no longer ignore. Literacy as a Civil Right assembles an impressive group of essays that broaden the conversation taking place about school reform, unmasking an ideology that maintains unequal relations of power in school and society. The ideas presented here will help readers re-imagine success in schools by understanding the possibilities that grow from a democratic vision of education. Together, this book provides an alternative framework to

increased testing, offering a more humane vision of education that values agency, rigor, civic responsibility, and democracy.

The Bible cyclopædia: or, Illustrations of the civil and natural history of the sacred writings [ed. by W. Goodhugh, completed by W.C. Taylor]. Peter Lang

Psalms, with an Introduction to Cultic Poetry, is Volume XIV of The Forms of the Old Testament Literature, a series that aims to present a form-critical analysis of every book and each unit in the Hebrew Bible. Fundamentally exegetical, the FOTL volumes examine the structure, genre, setting, and intention of the biblical literature in question. They also study the history behind the form-critical discussion of the material, attempt to bring consistency to the terminology for the genres and formulas of the biblical literature, and expose the exegetical process so as to enable students and pastors to engage in their own analysis and interpretation of the Old Testament texts. Erhard Gerstenberger begins this volume with an examination of the nature of cultic poetry, its role in ancient Near Eastern religion, and more specifically its role in the religion of Israel. He goes on to survey the genres of cultic poetry, including lament, complaint, and thanksgiving. He then focuses on the book of Psalms as an example of cultic poetry, first analyzing the book as a whole and then working through Psalms 1-60 unit by unit, discussing structure, genre, setting, and intention. The work is enhanced by extensive bibliographies and a glossary of genres and formulas that offers clear, thorough definitions with examples.
