Update. I've now taken the ACS tests in Organic, Physical & Inorganic Chemistry. To me they were a similar level of difficulty to the Chemistry GRE, except with only 60-80 multiple-choice questions compared to the 130 in the Chem GRE (to me that made the ACS tests harder in that they felt a lot more random...but at the same time I felt less rushed to answer them all, so less stressed).

ACS Exams produces a number of different exams for physical chemistry, including a Thermodynamics exam, a Quantum exam, and a Comprehensive exam with 20 items for each of thermodynamics, quantum, and kinetics/dynamics, and a modular exam, which is designed to allow instructors to mix and match components that reflect what gets taught (typically) in the two different semesters of the course. Alignment efforts used during the development of the ACCM for physical chemistry used the ...
