Problem with using Action Replay DSi - Nintendo 3DS  
Have you done anything different with your DSi recently, such as using an action replay or downloading an app? I've had this problem before when I leave the DSi on for too long with the action replay inserted. My common fix for this is trying to boot the game as fast as possible when the DSi powers on.

The Action Replay for Nintendo DS comes with many cheat codes already pre-installed. To use the official pre-installed cheat codes, insert your DS game cartridge into the Action Replay. The Action Replay can then be inserted into the game slot in your Nintendo DS. When you power on the game system, the Action Replay loads, and you can select the cheat codes you wish to enable for your specific game.
