The Automotive Engine Repair Tasksheet Manual guides students through the tasks detailed in Automotive Engine Repair, part of the CDX Master Automotive Technician Series. Based on the new 2017 NATEF Automobile Accreditation Task Lists, this updated edition provides tasks that meet Master Auto Service Technology (MAST) accreditation requirements for A1. This manual will assist students in demonstrating hands-on performance and proficiency in the skills and tools required to successfully diagnosis and repair engines. It will also serve as a personal portfolio of documented experience for prospective employment.

The Auto Suspension and Steering Shop Manual contains thorough coverage of the tasks listed in the A1 Engine Repair area of the NATEF Task List. Each job in this manual is a hands-on activity, and most jobs correspond to one or more of the NATEF tasks. The jobs have been carefully organized and developed to increase the chances of passing the related ASE tests by having the reader apply what has been learned in the classroom. This manual steps the student through all of the NATEF tasks in the A1 Engine Repair area, which include inspecting, diagnosing, removing, and rebuilding engines and related subsystems.

General Motors J-Cars Automotive Repair Manual

This two book set—a Classroom Manual and a Workshop Manual—provides a current and deep technical discussion of engine rebuilding and repair. This revision, written by a new author, has greatly reorganized the Workshop manual to eliminate duplicate material and improve the correlation between the two books. Provides users with an excellent resource in preparation for ASE Certification tests. In addition to the latest information about lubricants, engine design, and manufacturing, the books cover the following key topics: OSHA safety self-inspection worksheets; Engine parts, operation, and construction; Engine physics and chemistry; cooling systems; intake and exhaust systems; Tools for engine rebuilding; Engine testing and diagnosis; Engine removal, disassembly, general inspection, and cleaning. For auto mechanic professionals, those preparing for the ASE Certification Exam, or for use as a reference tool for those seeking a good foundation in theory and repair of engines.
