www.access-board.gov

The most common swimming pool ADA compliance issues include non-functioning pool lifts and training of hotel staff. The law requires that pool lifts be available for use during the pool's operational hours. Most pool lifts become disabled because the batteries have not been charged, or have been misplaced by hotel staff.

ADA Summary Guidelines for Swimming Pools, Wading Pools ...

Access requirements differ depending on the size of the swimming pool. For large pools with over 300 linear feet of pool wall, two means of access are required. One of these MUST be a primary access. For smaller pools with under 300 linear feet of pool wall, at least one means of access must be provided, and it MUST be primary.

ADA Requirements: Accessible Pools Means of Entry and Exit
The ADA Accessibility Guidelines (ADAAG) is the standard applied to buildings and facilities. Recreational facilities, including swimming pools, wading pools, and spas, are among the facilities required to comply with the ADA. The Access Board issued accessibility guidelines for newly constructed and altered recreation facilities in 2002.

Always put a slide in a deep area of the pool-- never in shallow water. There

should be a fence at least four feet high around all sides of the pool with a locked gate to keep children out when there is no supervision and the fence should be constructed so it is difficult to climb. Lawn furniture, trees, and shrubs should not be close enough to provide an easy boost over the fence.
