No matter your role, you'll benefit from their expert guidance, as well as: · Authentic classroom examples · Observer think-alouds · Stories from the field with "Give-It-a-Try" tools and "Stop and Think" questions · Follow-up steps specific to your role When classroom observation and feedback are both learner-centered (focused on students) and learning-focused (focused on teachers as learners), they lead to a culture of learning throughout the school. Take this book as your guide, and explore just how effective your feedback can be. Learner-Focused Feedback has been recognized for focusing on practices that have high effect sizes and will help you translate the groundbreaking Visible Learning research into practice. The Visible Learning research is based on Professor John Hattie's unmatched meta-analysis of more than 1,600 research reviews comprising 95,000 studies, involving more than 300 million students—the world's largest evidence base on what works best in schools to improve student learning. From that research, Dr. Hattie identified more than 250 factors that have an impact on student achievement. View a full list of

The life and times of this iconic and enduring biblical book The book of Job raises stark questions about the meaning of innocent suffering and the relationship of the human to the divine, yet it is also one of the Bible's most obscure and paradoxical books. Mark Larrimore provides a panoramic history of this remarkable book, traversing centuries and traditions to examine how Job's trials and his challenge to God have been used and understood in diverse contexts, from commentary and liturgy to philosophy and art. Larrimore traces Job's reception by figures such as Gregory the Great, William Blake, and Elie Wiesel, and reveals how Job has come to be viewed as the Bible's answer to the problem of evil and the perennial question of why a God who supposedly loves justice permits bad things to happen to good people.

This first book in a three volume series celebrates and examines the work of four African American authors of young adult literature. They are Virginia Hamilton, Julius Lester, Walter Dean Myers, and Mildred D. Taylor; they serve as the foundation of young adult literature and provide robust stories that center and illuminate African American youth. In addition, this volume also examines the role of the Coretta Scott King Award in promoting access and visibility to authors and illustrators who shine a spotlight on African American youth and society. The chapter authors--librarians and established and emerging scholars in the field of young adult literature--survey the work of Hamilton, Lester, Myers, or Taylor; their accolades; and how audiences initially responded to their work. Each chapter highlights a single work and discusses how it might be taught, providing pre, during, and post reading activities or, in some cases, individual, small group, or whole class activities. This volume is a resource for classroom teachers, teacher educators, reading specialists, librarians, and other educators who study, research, and read young adult literature. This first volume supplements studies in the foundations of African American authors of young adult literature and explorations of critical works by these authors.

Delve deep into ecosystems by classifying the beings that live there. Our resource breaks down the different kinds of animals before studying their different adaptations. Start off by answering the question: what do we classify? Then, break down this classification into kingdom, phylum, class, family, genus, and finally species. Compare the differences between warm-blooded and cold-blooded animals. Create

a brochure on your favorite vertebrate before inventing your own invertebrate. Introduce the concept of adaptation and how animals have changed based on their environment. Take this further by conducting a case study on the adaptations of the koala. Finally, explore the concept of evolution and how this idea is backed up by fossil records. Aligned to the Next Generation Science Standards and written to Bloom's Taxonomy and STEAM initiatives, additional hands-on experiments, crossword, word search, comprehension quiz and answer key are also included.

#1 NEW YORK TIMES BESTSELLER • Michelle Obama’s worldwide bestselling memoir, *Becoming*, is now adapted for young readers. Michelle Robinson was born on the South Side of Chicago. From her modest beginnings, she would become Michelle Obama, the inspiring and powerful First Lady of the United States, when her husband, Barack Obama, was elected the forty-fourth president. They would be the first Black First Family in the White House and serve the country for two terms.

Growing up, Michelle and her older brother, Craig, shared a bedroom in their family's upstairs apartment in her great-aunt's house. Her parents, Fraser and Marian, poured their love and energy into their children. Michelle's beloved dad taught his kids to work hard, keep their word, and remember to laugh. Her mom showed them how to think for themselves, use their voice, and be unafraid. But life soon took her far from home. With determination, carefully made plans, and the desire to achieve, Michelle was eager to expand the sphere of her life from her schooling in Chicago. She went to Princeton University, where she learned what it felt like to be the only Black woman in the room. She then went to Harvard Law School, and after graduating returned to Chicago and became a high-powered lawyer. Her plans changed, however, when she met and fell in love with Barack Obama. From her early years of marriage, and the struggle to balance being a working woman, a wife, and the mom of two daughters, Michelle Obama details the shift she made to political life and what her family endured as a result of her husband's fast-moving political career and campaign for the presidency. She shares the glamour of ball gowns and world travel, and the difficulties of comforting families after tragedies. She managed to be there for her daughters' swim competitions and attend plays at their schools without catching the spotlight, while defining and championing numerous initiatives, especially those geared toward kids, during her time as First Lady. Most important, this volume for young people is an honest and fascinating account of Michelle Obama's life led by example. She shares her views on how all young people can help themselves as well as help others, no matter their status in life. She asks readers to realize that no one is perfect, and that the process of becoming is what matters, as finding yourself is ever evolving. In telling her story with boldness, she asks young readers: Who are you, and what do you want to become?
