The GFA-555 remained in the Adcom line until recently, when the company upgraded it to the GFA-555II, which is almost identical to the original but has several new construction and circuit features designed to enhance its performance.. To reduce the amplifier's already low distortion even further, the grounding system for its inputs has been changed to isolate them from the grounded sides of ...

The ADCOM GFA-555 II is among the world's greatest audio power amplifiers of all time. While only

rated for 200 watts per channel into 8 Ω, this 20-year old veteran easily put out 260 watts from each channel simultaneously at only 0.007% THD into 8 Ω. If a Japanese brand was marketing this, they'd ...

sale | eBay

I also have a GFA-545 II and a GFA-585,
both that I truly love to run my Infinity
Quantum 3 and Quantum 2 speakers,
respectively, and Adcom preamps. They
do the job rather well and match nicely.
The Proton D1200/P100 I use on another
Quantum 3 pair is a bit better than the
545 II, but not by much.
