Quizzes & Practice Tests with Answer Key (Grade 10 Math Worksheets & Quick Study Guide) Team Rock Press

The Perfect Score Project is an indispensable guide to acing the SAT — as well as the affecting story of a single mom ' s quest to light a fire under her teenage son. It all began as an attempt by Debbie Stier to help her high-school age son, Ethan, who would shortly be studying for the SAT. Aware that Ethan was a typical teenager (i.e., completely

uninterested in any test) and that a mind-boggling menu of test-prep options existed, she decided — on his behalf -- to sample as many as she could to create the perfect SAT test-prep recipe. Debbie ’ s quest turned out to be an exercise in both hilarity and heartbreak as she took the SAT seven times in one year and in-between “ went to school ” on standardized testing. Here, she reveals why the SAT has become so important, the cottage industries it has spawned, what really works in preparing for the test and what is a waste of time. Both a toolbox of fresh tips and an amusing snapshot of parental love and wisdom colliding with teenage apathy, *The Perfect Score Project* rivets. In the book Debbie does it all: wrestles with Kaplan and Princeton Review, enrolls in Kumon, navigates [khanacademy.org](https://www.khanacademy.org), meets regularly with a premier grammar coach, takes a battery of intelligence tests, and even cadges free lessons from the world ’ s most prestigious (and expensive) test prep company. Along the way she answers the questions that plague every test-prep rookie, including: “ When do I start? ” ... “ Do the brand-name test prep services really deliver? ” ... “ Which should I go with: a tutor, an SAT class, or self study? ” ... “ Does test location really matter? ” ... “ How do I find the right tutor? ” ... “ How do SAT scores affect merit aid? ” ... and “ What ’ s the one thing I need to know? ” *The Perfect Score Project* ’ s combination of charm, authority, and unexpected poignancy makes it one of the most compulsively readable guides to SAT test prep ever — and a book that will make you think hard about what really matters.
