Be Afra. Be a frater. Be a brother. Be our brother's keeper. 'Love the Brotherhood' was the message of Beloved Afra, for which he was crucified 500,000 years ago on a continent named after him - AFRICA. There are more things in heaven and earth than are dreamt of in our philosophy, science and religion. Life is not a happenstance. The Berlin

Act 1885, the Biafran War 1967-1970, June 12, 1993, Sep 11, 2001; the election of Barack Obama as the 44th President of the USA or any other event in life is not a happenstance. This is demonstrated in Be Afra Volumes 1 & 2, using numerological analysis and cosmic clock charting. The Cosmic Law operates throughout the universe, seen and unseen. Be Afra discusses the origin of man, the root races with particular emphasis on the fourth root race, the progenitor of the black race; the law of karma, reincarnation, free will and other aspects of the cosmic law. Each root race has a divine purpose and from the beginning was endowed with divine love, wisdom and power to fulfill that purpose. Each had the knowledge of the cosmic law. Be Afra draws on sacred writings, If, Yrb legends and deep analysis of Yrb language to demonstrate that the black race had knowledge of the Everlasting Gospel, the Teaching that should keep mankind free from ignorance or defiance of the Law. Ignorance of that Law is no excuse. We are who we are and where we are, by series of decisions we took, at the Y-junctions of life. Beloved Great Divine Director, Manu of the seventh (the incoming) root race said: "Perhaps we have been a bit timid ourselves, or should I say conservative and dignified, in not employing more spectacular methods to acquaint mankind with the

wonderful product which we have to offer. After all, blessed ones, we are marketing divine freedom to the earth and conveying it to individuals every day, yet we are seldom seen or heard in the marketplace of life. Perhaps the 'shouting from the housetops' through the multitudes of antennas reaching out into the ethers shall one day convey a greater measure of heaven's law to the earth. We shall see." Imagine yourself having
one foot planted on one
continent while the other
foot is on another
continent. A huge

transformational step, isn't
it? That's precisely what

Inno Onwueemes early-life
story does. One foot is

planted firmly in the
traditional African village

where age-old customs
mingle with poverty,

disease, ignorance, and
deprivation. The other foot

pivots tantalizingly in
1960s California, at the

cutting edge of western
civilization. Here, searing

social and political
upheavals of global

significance were shaking
the very foundations of

modern America and the
world. Add to the mix, a

second dimension where
your journey starts with a

decade of colonial rule, and extends through the first decade of post-colonial independence, straddling both eras. And did we mention a civil war, and his becoming a refugee? It was a time of great fomentation personally, nationally and globally. Read this engaging story and enjoy it as a thrilling novel, richly spiced with African proverbs. Then pinch yourself and recall that this is not fiction. It all truly happened. This was a real life being lived in exciting times. Challenge yourself to explore how the changes of the political transition intertwined with Professor Innos transformation from an African village boy to a cosmopolitan man in America. Marvel at how the history of an era was acted out in microcosm by this village boy. LIKE A LILY AMONG THORNS takes global and national metamorphosis down to the personal level. It invites

you to see history in a new light.

TARGET SNAP 2021 (Past Papers 2005 - 2020) + 5 Mock Tests 13th Edition Pearson Education South Asia

Zakes Mda is the most acclaimed South African writer of the independence era. His eight novels tell stories that venture far beyond the conventional narratives of a people's struggle against apartheid. In this memoir, he tells the story of a life that intersects with the political life of his country but that at its heart is the classic adventure story of an artist, lover, father, teacher, and bon vivant. Zanemvula Mda was born in 1948 into a family of lawyers and grew up in Soweto's ambitious educated black class. At age fifteen he crossed the Telle River from South Africa into Basutoland (Lesotho), exiled like his father, a "founding spirit" of the Pan Africanist Congress. Exile was hard, but it was just another chapter in Mda's coming-of-age. He served as an altar boy

(and was preyed on by priests), flirted with shebeen girls, feared the racist Boers, read comic books alongside the literature of the PAC, fell for the music of Dvorák and Coltrane, wrote his first stories—and felt the void at the heart of things that makes him an outsider wherever he goes.

The Soweto uprisings called him to politics; playwriting brought him back to South Africa, where he became writer in residence at the famed Market Theatre; three marriages led him hither and yon; acclaim brought him to America, where he began writing the novels that are so thick with the life of his country. In all this, Mda struggled to remain his own man, and with *Sometimes There Is a Void* he shows that independence opened the way for the stories of individual South Africans in all their variety.
