World Literature, Cosmopolitanism, Globality David R. Godine Publisher First published in 2003. Children's Friendship Training is a complete manualized guide for therapists treating children with peer problems. This unique, empirically validated treatment is the first to integrate parents into the therapy process to ensure generalization to school and home. Representing over twelve years of research, Children's Friendship Training presents the comprehensive social skills training program developed by these pioneering authors. Step-by-step interventions help children develop the skills to initiate mutually satisfying social interactions. These interactions can lead to higher regard within the peer group and the development of satisfying dyadic relationships that will, in turn, serve to enhance overall well being. Clinical and empirical rationales, illustrative case examples and parent handouts that educate parents and give specific guidelines for homework assignments are presented for each treatment module. Brief relevant reviews of the child development literature and selective reviews of assessment techniques and other approaches to children's social skills training are presented to sufficiently acquaint therapists interested in implementing children's friendship training.

An instant New York Times, Washington Post, and USA TODAY bestseller—based on the true story of the heroic librarians at the American Library in Paris during World War II—The Paris Library is a moving and unforgettable “ode to the importance of libraries, books, and the human connections we find within both” (Kristin Harmel, New York Times bestselling author). Paris, 1939: Young and ambitious Odile Souchet seems to have the perfect life with her handsome police officer beau and a dream job at the American Library in Paris. When the Nazis march into the city, Odile stands to lose everything she holds dear, including her beloved library. Together with her fellow librarians, Odile joins the Resistance with the best weapons she has: books. But when the war finally ends, instead of freedom, Odile tastes the bitter sting of unspeakable betrayal. Montana, 1983: Lily is a lonely teenager looking for adventure in small-town Montana. Her interest is piqued by her solitary, elderly neighbor. As Lily uncovers more about her neighbor's mysterious past, she finds that they share a love of language, the same longings, and the same intense jealousy, never suspecting that a dark secret from the past connects them. “A love letter to Paris, the power of books, and the beauty of intergenerational friendship” (Booklist), The Paris Library shows that extraordinary heroism can sometimes be found in the quietest places.

J.M. Coetzee's latest novel, The Schooldays of Jesus, is now available from Viking. Late Essays: 2006-2016 will be available January 2018. J. M. Coetzee, one of the greatest living writers in the English language, has crafted a deeply moving tale of love and mortality in his new book, Slow Man. When photographer Paul Rayment loses his leg in a bicycle accident, he is forced to reexamine how he has lived his life. Through Paul's story, Coetzee addresses questions that define us all: What does it mean to do good? What in our lives is ultimately meaningful? How do we define the place we call “home”? In his clear and uncompromising voice, Coetzee struggles with these issues and offers a story that will dazzle the reader on every page.

"This is science writing as wonder and as

inspiration." —The Wall Street Journal Wall Street Journal From one of the most influential scientists of our time, a dazzling exploration of the hidden laws that govern the life cycle of everything from plants and animals to the cities we live in. Visionary physicist Geoffrey West is a pioneer in the field of complexity science, the science of emergent systems and networks. The term “complexity” can be misleading, however, because what makes West's discoveries so beautiful is that he has found an underlying simplicity that unites the seemingly complex and diverse phenomena of living systems, including our bodies, our cities and our businesses. Fascinated by aging and mortality, West applied the rigor of a physicist to the biological question of why we live as long as we do and no longer. The result was astonishing, and changed science: West found that despite the riotous diversity in mammals, they are all, to a large degree, scaled versions of each other. If you know the size of a mammal, you can use scaling laws to learn everything from how much food it eats per day, what its heart-rate is, how long it will take to mature, its lifespan, and so on. Furthermore, the efficiency of the mammal's circulatory systems scales up precisely based on weight: if you compare a mouse, a human and an elephant on a logarithmic graph, you find with every doubling of average weight, a species gets 25% more efficient—and lives 25% longer. Fundamentally, he has proven, the issue has to do with the fractal geometry of the networks that supply energy and remove waste from the organism's body. West's work has been game-changing for biologists, but then he made the even bolder move of exploring his work's applicability. Cities, too, are constellations of networks and laws of scalability relate with eerie precision to them. Recently, West has applied his revolutionary work to the business world. This investigation has led to powerful insights into why some companies thrive while others fail. The implications of these discoveries are far-reaching, and are just beginning to be explored. Scale is a thrilling scientific adventure story about the elemental natural laws that bind us together in simple but profound ways. Through the brilliant mind of Geoffrey West, we can envision how cities, companies and biological life alike are dancing to the same simple, powerful tune. The Paris Library Praeger A New York Times Bestseller “I'll be forever changed by Dr. Eger's story...The Choice is a reminder of what courage looks like in the worst of times and that we all have the ability to pay attention to what we've lost, or to pay attention to what we still have.” —Oprah “Dr. Eger's life reveals our capacity to transcend even the greatest of horrors and to use that suffering for the benefit of others. She has found true freedom and forgiveness and shows us how we can as well.” —Desmond Tutu, Nobel Peace Prize Laureate “Dr. Edith Eva Eger is my kind of hero. She survived unspeakable horrors and brutality; but rather than let her painful past destroy her, she chose to transform it into a powerful gift—one she uses to help others heal.” —Jeannette Walls, New York Times bestselling author of The Glass Castle Winner of the National Jewish Book Award and Christopher Award At the age of sixteen, Edith Eger was sent to Auschwitz. Hours after her parents were killed, Nazi officer Dr. Josef Mengele, forced Edie to dance for his amusement and her survival. Edie was pulled from a pile of corpses when the American troops liberated the camps in 1945. Edie spent decades struggling with flashbacks and survivor's guilt, determined to stay silent and hide from the past. Thirty-five years after the war ended, she returned to Auschwitz and was finally able to fully heal and forgive the one person she'd been unable to forgive—herself. Edie

weaves her remarkable personal journey with the moving stories of those she has helped heal. She explores how we can be imprisoned in our own minds and shows us how to find the key to freedom. The Choice is a life-changing book that will provide hope and comfort to generations of readers. Borderlands University Press of Kentucky Golden Age departures in historiography and theory of history in some ways prepared the ground for modern historical methods and ideas about historical factuality. At the same time, they fed into the period's own “aesthetic-historical culture” which amalgamated fact and fiction in ways modern historians would consider counterfactual: a culture where imaginative historical prose, poetry and drama self-consciously rivalled the accounts of royal chroniclers and the dispatches of diplomatic envoys; a culture dominated by a notion of truth in which skilful construction of the argument and exemplarity took precedence over factual accuracy. Literature and Historiography in the Spanish Golden Age: The Poetics of History investigates this grey area backdrop of modern ideas about history, delving into a variety of Golden Age aesthetic-historical works which cannot be satisfactorily described as either works of literature or works of historiography but which belong in between these later strictly separate categories. Island in the Light / Isla en la luz is a fascinating and insightful compilation that pairs contemporary Cuban visual art and literature by having 30 prominent writers respond to the works of 35 renowned artists. Contemporary Cuban art, literature, and music come together in Island in the Light / Isla en la luz. This bilingual compilation of the work of 35 artists and 30 writers began by selecting artwork by renowned artists and asking prominent writers to create original stories, poems, or essays in response. The result is a thoroughly original and captivating selection of visual arts and literature in dialogue that conveys a sense of the essence and energy of Cuban arts today. Artists represented include Tania Bruguera, Maria Magdalena Campos-Pons, Yoan Capote, Teresita Fernández, Roberto Fabelo, Carlos Garaicoa, and Enrique Martínez Celaya. Among the writers are Wendy Guerra, José Cozer, Jorge Enrique Lage, Legna Rodríguez Iglesias, Achy Obejas, Leonardo Padura, and Reina María Rodríguez. The works are drawn from the Jorge M. Pérez Art Collection; the majority have been gifted to the Pérez Art Museum Miami (PAMM), while the others are promised gifts to PAMM. The volume also includes music: Pavel Urkiza composed original scores inspired by several of the selections that readers link to through QR codes. In addition to the short stories, poems, and essays inspired by the artwork, the volume includes commentary and critical essays by Jorge M. Pérez, Carlos Garaicoa, and Wendy Guerra and Leonardo Padura. Proceeds benefit The Jorge M. Pérez Family Foundation, which will redirect the funds to arts organizations.

The culture of medieval Spain was anything but homogeneous. It varied not only through time, with the approach of the Renaissance, but also geographically, with great differences between north and south. In this study, author Lucy A. Sponsler illuminates the role of women during this interesting period by exploring their portrayal in literature. **Women in the Medieval Spanish Epic and Lyric Traditions** examines the various ways in which women were portrayed in the formative years of medieval society, as well as the development of these views as new social mores evolved. Employing a thorough examination of the literature, Sponsler reveals that a high degree of respect was demonstrated toward women in Spanish prose and poetry of this period. Her study sheds new light on the role of women in relation to men, family, and social organization in medieval Spain.

An inside look at the obsessive, secretive, and often bizarre world of high-profile stamp collecting, told through the journey of the world's most sought-after stamp. When it was issued in 1856, it cost a penny. In 2014, this tiny square of faded red paper sold at Sotheby's for nearly \$9.5 million, the largest amount ever paid for a postage stamp at auction.

Through the stories of the eccentric characters who have bought, owned, and sold the one-cent magenta in the years in between, James Barron delivers a fascinating tale of global history and immense wealth, and of the human desire to collect. One-cent magentas were provisional stamps, printed quickly in what was then British Guiana when a shipment of official stamps from London did not arrive. They were intended for periodicals, and most were thrown out with the newspapers. But one stamp survived.

The singular one-cent magenta has had only nine owners since a twelve-year-old boy discovered it in 1873 as he sorted through papers in his uncle's house. He soon sold it for what would be \$17 today.

(That's been called the worst stamp deal in history.) Among later owners was a fabulously wealthy Frenchman who hid the stamp from almost everyone (even King George V of England couldn't get a peek); a businessman who traveled with the stamp in a briefcase he handcuffed to his wrist; and John E. du Pont, an heir to the chemical fortune, who died while serving a thirty-year sentence for the murder of Olympic wrestler Dave Schultz.

Recommended for fans of Nicholas A. Basbanes, Susan Orlean, and Simon Winchester, **The One-Cent Magenta** explores the intersection of obsessive pursuits and great affluence and asks why we want most what is most rare.

"Advanced Everyday English is designed in very much the same mode as the first book (Practical Everyday English with audio CD) in that all of the examples will contain vocabulary and expressions you have studied on earlier pages. You will also find many words from the first book, which will give you an opportunity to revise the material. In this second book there is more of what one might call "serious" vocabulary, but there are plenty of phrasal verbs and idioms as well. The book will be of particular benefit to those readers with an advanced level of English who wish to become (or who already are) interpreters, translators or teachers of English, or who simply want to be able to speak and understand English at a very high level. In addition, people who need to read English language journals or converse in English on a daily basis, either in business or for pleasure, will find it very useful."--Publisher's description.
