In recent decades the explosive growth of globalization and regional integration has fuelled parallel growth in multilingual conferences. Although conference interpreting has come of age as a profession, interpreter training programs have had varied success, pointing to the need for an instructional manual which covers the subject comprehensively. This book seeks to fill that need by providing a structured syllabus and an overview of interpretation accompanied by exercises in various aspects of the art. It is meant to serve as a practical guide for interpreters and as a complement to interpreter training programs in the classroom and online, particularly those for students preparing for conference interpreting in international governmental and business settings. This expanded second edition includes additional exercises and provides direct links to a variety of web-based resources and practice speeches, also including additional language combinations. This is the story that launched a movement. At only 12 years old, Craig Kielburger was shocked to discover the realities of child labour faced by kids his own age throughout the developing world. Driven to take action and witness these conditions first-hand, he and his trusted mentor Alam embarked on a journey that would take him to places he'd never imagined. Free the Children recounts Craig's remarkable odyssey across South Asia, meeting some of the world's most disadvantaged children and learning the truth behind the headlines. Be there with him as he explores slums and sweatshops, fighting to rescue children from the chains of inhumane conditions. Along the way, he makes lasting friendships, enjoys wild adventures and launches the movement that would explode into an international sensation. Winner of the prestigious Christopher Award, presented to books "which affirm the highest values of the human spirit," Free the Children has been translated into eight languages and served as inspiration for thousands of young people around the world.

Are today's young adults gender rebels or returning to tradition? In *Where the Millennials Will Take Us*, Barbara J. Risman reveals the diverse strategies youth use to negotiate the ongoing gender revolution. Using her theory of gender as a social structure, Risman analyzes life history interviews with a diverse set of Millennials to probe how they understand gender and how they might change it. Some are true believers that men and women are essentially different and should be so. Others are innovators, defying stereotypes and rejecting sexist ideologies and organizational practices. Perhaps new to this generation are gender rebels who reject sex categories, often

refusing to present their bodies within them and sometimes claiming genderqueer identities. And finally, many youths today are simply confused by all the changes swirling around them. As a new generation contends with unsettled gender norms and expectations, Risman reminds us that gender is much more than an identity; it also shapes expectations in everyday life, and structures the organization of workplaces, politics, and ideology. To pursue change only in individual lives, Risman argues, risks the opportunity to eradicate both gender inequality and gender as a primary category that organizes social life.

Hanging Out, Messing Around, and Geeking Out Cambridge University Press

An examination of young people's everyday new media practices—including video-game playing, text-messaging, digital media production, and social media use. Conventional

wisdom about young people's use of digital technology often equates generational identity with technology identity: today's teens seem constantly plugged in to video games, social networking sites, and text messaging. Yet there is little actual research that investigates the intricate dynamics of youths' social and recreational use of digital media. *Hanging Out, Messing Around, and Geeking Out* fills this gap, reporting on an ambitious three-year ethnographic investigation into how young people are living and learning with new media in varied settings—at home, in after-school programs, and in online spaces. Integrating twenty-three case studies—which include Harry Potter podcasting, video-game playing, music sharing, and online romantic breakups—in a unique collaborative authorship style, *Hanging Out, Messing Around, and Geeking Out* is distinctive for its combination of in-depth description of specific group dynamics with conceptual analysis.

History is forged through the travel of ideas across continents—as well as by bombs. *The Age of Globalization* is an account of the unlikely connections that made up late nineteenth-century politics and culture, and in particular between militant anarchists in Europe and the Americas, and anti-imperialist uprisings in Cuba, China and Japan. Told through the complex intellectual interactions of two great Filipino writers—the political novelist José Rizal and the pioneering folklorist Isabelo de los Reyes—*The Age of Globalization* is a brilliantly original work on how global exchanges shaped the nationalist movements of the time.

Adelante! Workbook and laboratory manual Greystone Books
A year-long study of the writing development of 27 first through third graders in an English/Spanish bilingual program was conducted during the 1980-81 school year. Samples of the children's writing were collected at four intervals, coded for computer tallying, and analyzed in terms of code-switching, spelling, punctuation and segmentation, structural features, stylistic devices, and content. Additionally, the context in which the writing developed was evaluated by classroom observations, teacher interviews, review of familial backgrounds, and a survey of the community language situation. Myths about bilingual language proficiency, biliteracy, bilingual education, teaching writing, and learning to write are all countered by evidence presented in this study. In a discussion of implications, the concept of a whole language approach to writing instruction is supported, in which authentic and functional texts are offered to and produced by children. Examples of the children's writing with appropriate translations are given along with various tables. Informal follow-up information is presented in three epilogues dealing with changes in the researcher's commitment to the study's original writing theories, the writing of some students a year after the study; and a chronological outline of the demise of the bilingual program used in the study. Appendices list interview questions used for teachers and aides and categories for coding the writing data. This book contains 134 references. (ALL)

First published in 2003. *Children's Friendship Training* is a complete manualized guide for therapists treating children with peer problems. This unique, empirically validated treatment is the first to integrate parents into the therapy process to ensure generalization to school and home. Representing over twelve years of research, *Children's Friendship Training* presents the comprehensive social skills training program developed by these pioneering authors. Step-by-step interventions help children develop the skills to initiate mutually satisfying social interactions. These interactions can lead to higher regard within the peer group and the development of satisfying dyadic relationships that will, in turn, serve to enhance overall well being. Clinical and empirical rationales, illustrative case examples and parent handouts that educate parents and give specific guidelines for homework assignments

are presented for each treatment module. Brief relevant reviews of the child development literature and selective reviews of assessment techniques and other approaches to children's social skills training are presented to sufficiently acquaint therapists interested in implementing children's friendship training.
