What can practice management systems software do for a law practice? With the right system in place, a law firms and staff will have the ability to automatically route items, tasks, documents, and events to certain people based on their role in the case or matter, as well as manage deadlines, improve responsiveness to clients, reduce malpractice insurance rates, and boost overall productivity. The challenge is to find a program that best serves the needs of the firm. Lab Manual for Andrews' A+ Guide to Hardware, 6th

Do you spend too much time doing repetitive production tasks such as placing and replacing images, resizing them, dragging them from one document to another, and preparing images for printing instead of being creative? Do you use Adobe Acrobat and have a strong working knowledge of JavaScript? Then you're in luck. Since Adobe Creative Suite 2 was created with built-in support for scripting, virtually every repetitive or timeconsuming task that creative professionals have to do in Acrobat can be streamlined or automated with the help of a script. This book describes how to use JavaScript to manipulate and extend Adobe Acrobat, and provides reference information for the JavaScript objects, properties, and functions defined by Adobe's applications. Now available in print for the first time, this book doesn't teach you how to write code in JavaScript, but if you're familiar with the scripting language, and want to start writing scripts for Acrobat, you'll appreciate having the most definitive, up-to-date referenceavailable.
