The scripting host in a Web browser exposes the "host objects" such as window, document (DOM) and location objects to the JavaScript engine. Similarly, in Adobe Reader, Adobe Acrobat and other applications, the viewer exposes several host objects to the JavaScript engine. These host objects are described in two documents:

[JavaScript for Acrobat - Adobe Inc.](#)

Acrobat and Reader X, 9.3, and 8.2 enable enhanced security by default. Adobe recommends that you enable enhanced security if it is not already enabled, and that you bypass restrictions only for trusted content.
