The Digital Filmmaking Handbook

presents Premiere Pro for Filmmakers, the editing handbook you've been waiting for. Everyone edits video, at least a little bit. But there's a huge difference between trimming a clip for social media and truly making a film, whether it's short, long, or episodic. Filmmakers, even beginners, use editing apps like Premiere Pro to their fullest capacity. Written by filmmakers for filmmakers, this book covers everything you need to know to edit your movie and tell the story you want to tell using Adobe Premiere. Premiere Pro for Filmmakers takes you through each step of the post-production process, from easy, entry-level editing tutorials that use footage from real feature films to advanced topics like multicam editing, sound editing, graphics, visual effects, and color. And it doesn't stop there. Since many filmmakers have access to the full Adobe Creative Cloud suite, discussions of related apps are included whenever appropriate--After Effects, Photoshop, Media Encoder, Audition, Bridge, other resources like TypeKit fonts, Adobe Stock, and more. Premiere Pro for Filmmakers is the flagship book in our new, single-topic, companion series, The Digital Filmmaking Handbook Presents. This series picks up where The Digital Filmmaking Handbook leaves off, tackling each topic exclusively, in-depth, and as always, from the perspective of working filmmakers.

[Adobe Premiere Elements Classroom in a Book](#) Adobe Press The 'Color Correction Handbook' covers a wide variety of techniques that can be used by colourists, no matter what system they're using. From the most basic methods for evaluating and correcting an overall image, to the most advanced targeted corrections and creative stylizations typically employed, this book covers it all.

[Mastering Adobe Premiere Pro CS6 Hotshot](#) Adobe Press This fluent and comprehensive field guide responds to increased interest, across the humanities, in the ways in which digital technologies can disrupt and open up new research and pedagogical avenues. It is designed to help scholars and students engage with

their subjects using an audio-visual grammar, and to allow readers to efficiently gain the technical and theoretical skills necessary to create and disseminate their own trans-media projects. *Documentary Making for Digital Humanists* sets out the fundamentals of filmmaking, explores academic discourse on digital documentaries and online distribution, and considers the place of this discourse in the evolving academic landscape. The book walks its readers through the intellectual and practical processes of creating digital media and documentary projects. It is further equipped with video elements, supplementing specific chapters and providing brief and accessible introductions to the key components of the filmmaking process. This will be a valuable resource to humanist scholars and students seeking to embrace new media production and the digital landscape, and to those researchers interested in using means beyond the written word to disseminate their work. It constitutes a welcome contribution to the burgeoning field of digital humanities, as the first practical guide of its kind designed to facilitate humanist interactions with digital filmmaking, and to empower scholars and students alike to create and distribute new media audio-visual artefacts.
