Adolphe, novel
by Benjamin
Constant,

published in
1816. Written in
a lucid classical
style, Adolphe
describes in
minute analytical
detail a young
man ' s passion

for a woman older than himself. A forerunner of the modern psychological novel, it is a thinly disguised account of the end of Constant's passionate 14-year relationship with Madame de Staël, a well-known (and married) woman of letters. Adolphe (2002) - IMDb
Written in a lucidly analytic yet discreetly emotional style, Adolphe (1816) distills the lessons of Constant's own experiences in love, but it also reflects

his anxieties about the prospects for any kind of authentic commitment, political or religious as well as emotional, in a disenchanted world.

Adolphe – Benjamin Constant – Livres Rares

ADOLPHE is a short novel (really a novella), the only literary production of Benjamin Constant but one of the most important novels in French history. You could

consider it Proust in miniature for its startlingly acute analysis of the psychology of love, indifference, and despair, all of which preoccupied Proust at major length.
