For artist Dan Bellamy and his new bride Elaine, a trip on the world's biggest, newest cruise ship represents more than just the honeymoon of a lifetime: it is also a celebration of the progress Dan has made toward beating the agoraphobia that has plagued him since he suffered a horrific knife attack two years earlier. The ship is a perfect floating paradise, but when Dan spots what he thinks is a body being thrown overboard, he begins to suspect that not everybody aboard the Oceanus is there for a vacation. Soon, Dan will discover that there are some things worse than murder, and the body he saw is just the beginning. Because something is coming for the passengers on the Oceanus. Something that isn't supposed to exist...

A story of tragedy at sea where every desperate act meant life or death The small ship making the Liverpool-to-New York trip in the early months of 1856 carried mail, crates of dry goods, and more than one hundred passengers, mostly Irish emigrants. Suddenly an iceberg tore the ship asunder and five lifeboats were lowered. As four lifeboats drifted into the fog and icy water, never to be heard from again, the last boat wrenched away from the sinking ship with a few blankets, some water and biscuits, and thirteen souls. Only one would survive. This is his story. As they started their nine days adrift more than four hundred miles off Newfoundland, the castaways--an Irish couple and their two boys, an English woman and her daughter, newlyweds from Ireland, and several crewmen, including Thomas W. Nye from Fairhaven, Massachusetts--began fighting over food and water. One by one, though, day by day, they died. Some from exposure, others from madness and panic. In the end, only Nye and the ship's log survived. Using Nye's firsthand descriptions and later newspaper accounts, ship's logs, assorted diaries, and family archives, Brian Murphy chronicles the horrific nine days that thirteen people suffered adrift on the cold gray Atlantic. Adrift brings readers to the edge of human limits, where every frantic decision and desperate act is a potential life saver or life taker.

Five of us went out on the water that night. None of us came back whole, and not all of us came back. Best friends Matt and John are spending the summer working: Matt to save money for college, John to kill time before trade school. On the beach, the beautiful Driana stops Matt in his tracks. Dri, Stef and JoJo invite the boys to a party at Dri's Hamptons mansion, and Matt drags John along. When Stef decides it's a beautiful night to go windsurfing, the others race out on the water to make sure she's safe. "All Adrift" is the first volume of a new set of books, to be known as "The Boat-Builder Series." The story contains the adventures of a boy who is trying to do something to help support the family, but who finds himself all adrift in the world. He has the reputation of being rather "wild," though he proves that he is honest, loves the truth, and is willing to work for a living. Having been born and brought up on the shore of Lake Champlain, he could not well avoid being a boatman, especially as his father was a pilot on a steamer. Nearly all the scenes of the story are on the water; and the boy shows not only that he can handle a boat, but that he has ingenuity, and fertility of resource. Adrift in a Boat

Book Excerpt: each party inquired what had become of Harry and David. Captain Rymer's yacht, the Arrow, was off the first, for the Psyche, Mr Moreton's, fouled her anchor, and it was some time before it could be got up. Mr Moreton thought that his son, and the young midshipman had, attracted by sweet Mary Rymer, gone on board the Arrow; while Mary, who, it

must be owned, was rather sorry not to see them, took it for granted that Harry was returning, as he had come, by land, and that David had gone with him. The yachts had a long beat back. As they got away from the land, the wind increased very much, and came in strong sharp cold gusts which made it necessary first to take in the gaff-topsails, and then one reef and then another in the mainsails. As the wind increased the sea got up, and the little vessels, more suited to fine weather than foul, had hard work to look up to the rising gale. Still there was no help for it. The tide helped them along, but by its meeting the wind much m
