At Risk Youth Springer

Developmental Cognitive Behavioral Therapy with Adults outlines a new cognitive approach that combines existing CBT theory and strategies with a lifespan developmental psychopathology perspective. The major focus is on the relationship between mastery of normative psycho-social developmental tasks and mental health. Primary targets for therapy are maladaptive developmental pathways that have significantly disrupted the client's ability to cope with normal adult tasks and challenges. The book builds on standard cognitive therapy models and techniques, while providing further assessment and therapy strategies to address patterns interfering with resolution of normative adult tasks and roles. It introduces several new developmental assessment and therapy strategies, designed to address client difficulties with normal adult developmental tasks and to identify longstanding maladaptive pathways maintaining these difficulties. The book offers a variety of psycho-social developmental task difficulties in occupational, social, and family functioning. The clinical examples provide a deeper understanding of pathways to competence, as well as pathways to deviance, and the contrast between normal and atypical processes as they emerge at different developmental periods.

Encyclopedia of School Psychology Guilford Press

This book provides an interdisciplinary framework for school intervention into child and adolescent maltreatment, highlighting the unique potential for schools to identify and mitigate the long-term impacts of childhood trauma on children's educational well-being. Contributors evaluate recent efforts to incorporate trauma-informed approaches into schools, including strategic planning by administrators, staff training, prevention programming, liaising with local youth service agencies, and trauma-sensitive intervention with affected students. Among the topics discussed: • The developmental impact of trauma • The role of schools and teachers in supporting student mental health • Prevention programming to prevent child and adolescent sexual abuse • Education policies to support students with traumatic histories • Responding to childhood trauma at both macro and microsystem levels Trauma-Informed Schools: Integrating Child Maltreatment Prevention, Detection, and Intervention is a valuable resource for child maltreatment researchers, educational and school psychologists, school social workers, students in early childhood and K-12 education, and education policy makers at all levels of government. It offers the necessary guidelines and insights to facilitate better learning for students who have experienced trauma, aiming to improve student well-being both inside and outside the classroom.
