A guide to putting cognitive diversity to work Ever wonder what it is that makes two people click or clash? Or why some groups excel while others fumble? Or how you, as a leader, can make or break team potential? Business Chemistry holds the answers. Based on extensive research and analytics, plus years of proven success in the field, the Business Chemistry framework provides a simple yet powerful way to identify meaningful differences between people's working styles. Who seeks possibilities and who seeks stability? Who values challenge and who values connection? Business Chemistry will help you grasp where others are coming from, appreciate the value they bring, and determine what they need in order to excel. It offers practical ways to be more effective as an individual and as a leader. Imagine you had a more in-depth understanding of yourself and why you thrive in some work environments and flounder in

others. Suppose you had a clearer view on what to do about it so that you could always perform at your best. Imagine you had more insight into what makes people tick and what ticks them off, how some interactions unlock potential while others shut people down. Suppose you could gain people's trust, influence them, motivate them, and get the very most out of your work relationships. Imagine you knew how to create a work environment where all types of people excel, even if they have conflicting perspectives, preferences and needs. Suppose you could activate the potential benefits of diversity on your teams and in your organizations, improving collaboration to achieve the group's collective potential. Business Chemistry offers all of this--you don't have to leave it up to chance, and you shouldn't. Let this book guide you in creating great chemistry!

This document contains a record of  
the oral and written testimony of  
witnesses at a Chicago (Illinois)  
Congressional hearing on the Job  
Opportunities and Basic Skills (JOBS)  
Training Program. Witnesses at the  
hearing included officials from various  
Illinois programs funded by the JOBS  
program, government officials, and  
unemployed persons. They testified  
that the high state match of funds and  
services works against the successful  
implementation of the JOBS program  
and the requirements of the Family  
Support Act of 1988 are burdensome.  
Witnesses noted that in times of  
recession, the states simply do not  
have enough money to set up the

matches for federal funds. Witnesses  
also stated that the JOBS program's  
requirement that participants engage  
in 20 hours per week of education is  
unrealistic because most literacy  
programs or postsecondary programs  
require less than 20 hours of  
classroom work but presume home  
study time. The 20-hour rule works  
against participants improving their  
skills. Proposed changes in the JOBS  
legislation to lessen the amount of  
state money required and to make  
program requirements more flexible  
are included in these proceedings.

The Principles of Scientific Management

Weygandt helps corporate managers see the relevance of accounting in their everyday lives. Challenging accounting concepts are introduced with examples that are familiar to them, which helps build motivation to learn the material. Accounting issues are also placed within the context of marketing, management, IT, and finance. The new Do It! feature reinforces the basics by providing quick-hitting examples of brief exercises. The chapters also incorporate the All About You (AAY) feature as well as the Accounting Across the Organization (AAO) boxes that highlight the impact of accounting concepts. With these features, corporate managers will learn the concepts and understand how to effectively apply them.
