Century 21 Accounting: Advanced Cengage Learning

The tenth edition of Accounting (Hoggett et al.) provides an introductory but comprehensive description of the purpose, practice and process of contemporary international financial and management accounting in an Australian context. With the increased emphasis on the globalisation of business, the material is ideal

for the study of introductory accounting in a broad international context. The tenth edition builds on the strengths of previous editions with a strong focus on the decision-making role of accounting, as well as on a student's acquisition of generic skills such as communication, analytical, problem solving, critical thinking and judgement skills. The technical skills required in the application of accounting concepts still remain a core objective of the new edition.

Modern Advanced Accounting South-Western Pub Knapp 's CONTEMPORARY AUDITING, 11E prepares readers for the challenging responsibilities faced in the public accounting profession. This casebook stresses the people aspect of independent audits. Readers learn how to avoid audit failures most often due to client personnel who intentionally subvert an audit or auditors who fail to carry out their responsibilities. A detailed review of problem audits helps readers recognize the red flags common to failed audits. Discussing and dissecting these challenges prepares readers to handle potential problematic situations in their own professional careers. Readers also acquire a higher-

level understanding of auditing standards, ethical principles, audit procedures, and other issues related to independent auditing. By studying these topics in a real-world context, readers achieve a more in-depth, intuitive comprehension of auditing fundamentals, which translates into improved performance on the CPA exam and other professional examinations. Financial Accounting in an Economic Context, 10th Edition Vikas Publishing House

This document contains a record of the oral and written testimony of witnesses at a Chicago (Illinois) Congressional hearing on the Job Opportunities and Basic Skills (JOBS) Training Program. Witnesses at the

hearing included officials from various Illinois programs funded by the JOBS program, government officials, and unemployed persons. They testified that the high state match of funds and services works against the successful implementation of the JOBS program and the requirements of the Family Support Act of 1988 are burdensome. Witnesses noted that in times of recession, the states simply do not have enough money to set up the matches for federal funds. Witnesses also stated that the JOBS program's requirement that participants engage in 20 hours per week of education is unrealistic because most literacy programs or postsecondary programs require less than 20 hours of classroom work but presume home study time. The 20-hour

rule works against participants improving their skills. Proposed changes in the JOBS legislation to lessen the amount of state money required and to make program requirements more flexible are included in these proceedings. (KC)
