Essentials of Advanced Financial Accounting is an up-to-date and highly illustrated presentation of the accounting and reporting principles and procedures used in a variety of business entities. The book is ideal for instructors who have only a single term or semester to teach the core elements of the advanced accounting material that is most frequently represented on the CPA exam; this text contains the essential information on consolidations, multinational entities, partnerships, and governmental and not-for-profit entities. Most one-term courses are unable to cover all the topics included in a traditional comprehensive advanced accounting text. In recognition of time constraints, this text is structured to provide the most efficient use of the time available, while maintaining all the learning support and ancillary materials that cover these essential topics. For students and instructors who would like to cover a wider set of topics, we invite you to examine our comprehensive text, Advanced Accounting, which is now in its ninth edition. The text is highly illustrated with complete presentations of worksheets, schedules, and financial statements so that students can see the development of each topic. Inclusion of all recent FASB and GASB pronouncements and the continuing deliberations of the authoritative bodies provide a current and contemporary text for students preparing for the CPA Examination and current practice. The book's building block approach introduces concepts with simple examples and then gradually introduces complexity, allowing students to easily keep pace with the material.

International GAAP® 2019 is a comprehensive guide to interpreting and implementing International Financial Reporting Standards (IFRS), setting IFRS in a relevant business context and providing insights into how complex practical issues should be resolved in the real world of global financial reporting. This book is an essential tool for anyone applying, auditing, interpreting, regulating, studying or teaching IFRS. Written by EYs financial reporting professionals from around the world, this three-volume guide to reporting under IFRS provides a global perspective on the application of IFRS. Complex technical accounting issues are explained clearly and IFRS is set in a practical context with numerous worked examples and hundreds of illustrations from the published financial reports of major listed companies from around the world. The 2019 edition of International GAAP® has been fully revised and updated in order to:

- Continue to investigate the many implementation issues arising as entities adopt IFRS 9 (Financial Instruments) and IFRS 15 (Revenue from Contracts with Customers).
- Explore the complex implementation issues arising as entities adopt, in 2019, IFRS 16 (Leases).
- Include an updated chapter on the new insurance contracts standard IFRS 17 (Insurance Contracts), which reflects the recent discussions of the IASB's Transition Resource Group on

implementation issues raised, proposed narrow-scope amendments to IFRS 17 intended by the IASB, and also explores other matters arising as users prepare for the adoption of this standard. • Include an amended chapter on the revised Conceptual Framework, which was published in March 2018. The changes to the Conceptual Framework may affect the application of IFRS in situations where no standard applies to a particular transaction or event. • Address amended standards and new interpretations issued since the preparation of the 2018 edition. • Explain the many other initiatives that are currently being discussed by the IASB and by the IFRS Interpretations Committee and the potential consequential changes to accounting requirements. • Provide insight on the many issues relating to the practical application of IFRS, based on the extensive experience of the book's authors in dealing with current issues.
