Effect of advanced trauma life support (ATLS) on the time ...

There is no study investigating high altitude trauma treatment. The aim of this study is to analyze the impact of advanced trauma life support (ATLS) principles in mountain trauma, and to discuss a possible role of ATLS in mountain medicine education programs. Methods: We designed 5 tasks representing life-threatening trauma problems encountered in mountain rescue. They were used to evaluate the physician's ability to adequately diagnose and react to trauma situations.

Advanced Trauma Life Support

post ATLS®) 63 trauma patients with an AIS-ISS 16 (n = 31, pre-ATLS® and n = 32, post-ATLS®) were prospectively studied in two community residency training (ACS Level III) hospitals. All diagnostic and therapeutic procedures were recorded by a video-camera and evaluated by a neutral faculty of six experienced ATLS® trained specialists. Results: Ten out of 14 interventions were ...

Advanced Burn Life Support (ABLS) programs provide knowledge for immediate care of the burn patient up to the first 24-hours post injury. ABLs programs also support emergency preparedness and mass casualty incidents

focusing on triage, burn survivability, prioritizing transport of patients, and patient treatment.

Advanced trauma life support - Wikipedia

Advanced trauma life support is a training program for medical providers in the management of acute trauma cases, developed by the American College of Surgeons. Similar programs exist for immediate care providers such as paramedics. The program has been adopted worldwide in over 60 countries, sometimes under the name of Early Management of Severe Trauma, especially outside North America. Its goal is to teach a simplified and standardized approach to trauma patients. Originally designed for emerg
