The Peculiar Institution ALA Editions
An intersectional history of the shared struggle for African American and Latinx civil rights Spanning more than two hundred years, *An African American and Latinx History of the United States* is a revolutionary, politically charged narrative history, arguing that the “Global South” was crucial to the development of America as we know it. Scholar and activist Paul Ortiz challenges the notion of westward progress as exalted by widely taught formulations like “manifest destiny” and “Jacksonian democracy,” and shows how placing African American, Latinx, and Indigenous voices unapologetically front and center transforms US history into one of the working class organizing against imperialism. Drawing on rich narratives and primary source documents, Ortiz links racial segregation in the Southwest and the rise and violent fall of a powerful tradition of Mexican labor organizing in the twentieth century, to May 1, 2006, known as International Workers’ Day, when migrant laborers—Chicana/os, AfroCubanos, and immigrants from every continent on earth—united in resistance on the first “Day Without Immigrants.” As African

American civil rights activists fought Jim Crow laws and Mexican labor organizers warred against the suffocating grip of capitalism, Black and Spanish-language newspapers, abolitionists, and Latin American revolutionaries coalesced around movements built between people from the United States and people from Central America and the Caribbean. In stark contrast to the resurgence of “America First” rhetoric, Black and Latinx intellectuals and organizers today have historically urged the United States to build bridges of solidarity with the nations of the Americas. Incisive and timely, this bottom-up history, told from the interconnected vantage points of Latinx and African Americans, reveals the radically different ways that people of the diaspora have addressed issues still plaguing the United States today, and it offers a way forward in the continued struggle for universal civil rights. 2018 Winner of the PEN Oakland/Josephine Miles Literary Award

An American Odyssey Verso Books
A new edition of a classic history of the Mississippi River Delta Development Arrested is a major reinterpretation of the 200-year-old conflict between African American workers and the planters of the Mississippi Delta. The book measures the impact of the plantation system on those who suffered its depredations firsthand, while tracing the decline and resurrection of plantation ideology in national public policy debate. Despite countless defeats under the planter regime,

African Americans in the Delta continued to push forward their agenda for social and economic justice. Throughout this remarkably interdisciplinary book, ranging across fields as diverse as rural studies, musicology, development studies, and anthropology, Woods demonstrates the role of music—including jazz, rock and roll, soul, rap and, above all, the blues—in sustaining a radical vision of social change.

This groundbreaking volume offers a fresh approach to conceptualizing the historical geography of North America by taking a thematic rather than a traditional regional perspective. Leading geographers, building on current scholarship in the field, explore five central themes. Part I explores the settling and resettling of the continent through the experiences of Native Americans, early European arrivals, and Africans. Part II examines nineteenth-century European immigrants, the reconfiguration of Native society, and the internal migration of African Americans. Part III considers human transformations of the natural landscape in carving out a transportation network, replumbing

waterways, extracting timber and minerals, preserving wilderness, and protecting wildlife. Part IV focuses on human landscapes, blending discussions of the visible imprint of society and distinctive approaches to interpreting these features. The authors discuss survey systems, regional landscapes, and tourist and mythic landscapes as well as the role of race, gender, and photographic representation in shaping our understanding of past landscapes. Part V follows the urban impulse in an analysis of the development of the mercantile city, nineteenth- and twentieth-century planning, and environmental justice. With its focus on human-environment interactions, the mobility of people, and growing urbanization, this thoughtful text will give students a uniquely geographical way to understand North American history. New York City has been the home of African Americans for four centuries. Blacks were among the founding fathers and mothers of pioneer colonial settlements in the future boroughs, and they have remained integral players in the teeming daily drama of the city. *The Black New Yorkers: The Schomburg Illustrated Chronology* recreates this unique relationship between a people and a city, and through it chronicles the worldwide African American struggle for freedom and human dignity. This richly produced volume offers a monumental assembly of powerful images and engrossing text that narrates the African American odyssey from colonial times to the present day. In these pages, you'll explore all the driving forces and seminal events in each era, from Colonial New York and the Revolutionary War, through the progress and turmoil of the nineteenth century, to the turbulence and accomplishments of the twentieth century. In highly detailed, year-by-year entries, you'll gain insights into familiar events and discover lesser-known but important other facts about these topics and more: Politics: from the laws that whittled away black freedoms in colonial times to the civil rights victories of our own day; from the Tenderloin race riot and the Pan-African Congress to the Million Youth March; from Harriet Tubman and Sojourner Truth to Marcus Garvey and Malcolm X. Business and Labor: from free fur-traders and enslaved workers who built houses, roads, and bridges; to the rise of small businesses and the real estate boom in Harlem; to the ascent of

entrepreneurs and corporate titans such as Ed Lewis, Earl G. Graves, and Kenneth I. Chenault. The Arts: from nineteenth-century Shakespearean actor Ira Aldridge and celebrated soprano Sissieretta Jones to Langston Hughes and Zora Neale Hurston of the Harlem Renaissance; as well as Paul Robeson, Lena Horne, Alvin Ailey, Spike Lee, and LL Cool J. Sports: from great jockey Isaac Murphy, cycling champ Marshall "Major" Taylor, and baseball legend John Henry "Pops" Lloyd—said to be the greatest player ever—to tennis star Althea Gibson, Jackie Robinson, and Kareem Abdul-Jabbar. Resonant with tales of trial, courage, and triumph, vibrant with portraits of both famous and humble history-makers, *The Black New Yorkers* is a sweeping, powerful record of the richly diverse heritage of African Americans in the capital of black America. It is a perfect reference for the serious student of history and a browser's delight for every reader interested in the black experience. By the time of his death in 1988, Romare Bearden was most widely celebrated for his large-scale public murals and collages, which were reproduced in such places as Time and Esquire to symbolize and evoke the black experience in America. As Mary Schmidt

Campbell shows us in this definitive, defining, and immersive biography, the relationship between art and race was central to his life and work -- a constant, driving creative tension. Bearden started as a cartoonist during his college years, but in the later 1930s turned to painting and became part of a community of artists supported by the WPA. As his reputation grew he perfected his skills, studying the European masters and analyzing and breaking down their techniques, finding new ways of applying them to the America he knew, one in which the struggle for civil rights became all-absorbing. By the time of the March on Washington in 1963, he had begun to experiment with the Projections, as he called his major collages, in which he tried to capture the full spectrum of the black experience, from the grind of daily life to broader visions and aspirations. Campbell's book offers a full and vibrant account of Bearden's life -- his years in Harlem (his studio was above the Apollo theater), to his travels and commissions, along with illuminating analysis of his work and artistic career.

Campbell, who met Bearden in the 1970s, was among the first to compile a catalogue of his works. *An American Odyssey* goes far beyond that, offering a living portrait of an artist and the impact he made upon the world he sought both to recreate and celebrate.

The essays assembled in *Crossing Boundaries* reflect the international dimensions, commonalities, and discontinuities in the histories of diasporan

communities of colour. People of African descent in the New World (the United States, Latin America, and the Caribbean) share a common set of experiences: domination and resistance, slavery and emancipation, the pursuit of freedom, and struggle against racism. No unitary explanation can capture the varied experiences of black people in diaspora. Knowledge of individual societies is illuminated by the study and comparison of other cultural histories. This volume, growing out of the Comparative History of Black People in Diaspora Symposium held at Michigan State University, elaborates the profound relationship between curriculum and pedagogy. *Crossing Boundaries* embraces the challenge to probe differences embedded in Black ethnicities and helps to discover and to weave into a new understanding the threads of experience, culture, and identity across diasporas. Contributors include Thomas Holt, George Fredrickson, Jack P. Green, David Barry Gaspar, Earl Lewis, Elliott Skinner, Frederick Cooper, Allison Blakely, Kim Butler, and Rosalyn Terborg-Penn.
