In the winter of 1923, Professor Polly McLean interviewed several African American leaders, activists, and artists across the country, among them Martin Luther King, Malcolm X, and James Baldwin. Sections from the transcripts of these interviews are combined with the author’s reflections on the interviewees and the Civil Rights Movement as a whole to create a powerful oral history of this all-important struggle. A new introduction by David W. Blight places Warner’s book in historical perspective. ”In this new edition introduced by the eminent historian David Blight, Who Speaks for the Negro? reveals a provocative admixture of history’s variance. Warner’s account of the past from which we cannot escape. It summons us to awaken a more vital national heartbeat for reparations for an American dilemma.”—Houston Baker, Vanderbilt University

Annalee Spain—a daring but overworked theologian at a small Chicago Bible college—receives a cryptic telegram calling her home to Denver to solve the mystery of the murder of her beloved but estranged father. For a young Black woman, searching for answers in a city ruled by the KKK could mean real danger. Still, with her literary hero Sherlock Holmes as inspiration, Annalee launches her hunt for clues, attracting two surprising allies: Eddie, a relentless young white boy searching for his missing father, and Jack, a handsome Black pastor who loves nightclub dancing and rides in his sporty car, awakening Annalee's heart to the surprising highs and lows of romantic love. With their help, Annalee follows clues that land her among Denver's powerful elite. But when their sleuthing unravels sinister motives and deep secrets, Annalee confronts the dangerous truths and beliefs that could make her a victim too.

In this insightful and eclectic history, Adrian Miller delves into the influences, ingredients, and innovations that make up the soul food tradition. Focusing each chapter on the culinary and social history of one dish—such as fried chicken, chilli, yams, greens, and "red drinks—Miller uncovers how it got on the soul food plate and what it means for African American culture and identity. Miller argues that the story is more complex and surprising than commonly thought. Four centuries in the making, and fusing European, Native American, and West African cuisines, soul food—in all its fried, pork-infused, and sugary glory—is but one aspect of African American culinary heritage. Miller discusses how soul food has become incorporated into American culture and explores its connections to identity politics, bad health raps, and healthier alternatives. This refreshing look at one of America’s most celebrated, mythologized, and maligned cuisines is enriched by spirited sidebars, photographs, and twenty-two recipes.

The Story of the African Americans Who Have Fed Our First Families, from the Washingtons to the Obamas

Sydney Nathans offers a counterpoint to the narrative of the Great Migration, a central theme of black liberation in the twentieth century. He tells the story of enslaved families who became the emancipated owners of land they had worked in bondage.

The First African Americans in the Space Program Arcadia Publishing

The Space Age began just as the struggle for civil rights forced Americans to confront the long and bitter legacy of slavery, discrimination, and violence against African Americans. Presidents John F. Kennedy and Lyndon Johnson utilized the space program as an agent for social change, using federal equal employment opportunity laws to open workplaces at NASA and NASA contractors to African Americans while creating thousands of research and technology jobs in the Deep South to ameliorate poverty. We Could Not Fail tells the inspiring, largely unknown story of how shooting for the stars helped to overcome segregation on earth. Richard Paul and Steven Moss profile ten pioneer African American space workers whose stories illustrate the role NASA and the space program played in promoting civil rights. They recount how these technicians, mathematicians, engineers, and an astronaut candidate surmounted barriers to move, in some cases literally, from the cotton fields to the launching pad. The authors vividly describe what it was like to be the sole African American in a NASA work group and how these brave and determined men also helped to transform Southern society by integrating colleges, patenting new inventions, holding elective office, and reviving and governing defunct towns. Adding new names to the roster of civil rights heroes and a new chapter to the story of space exploration, We Could Not Fail demonstrates how African Americans broke the color barrier by competing successfully at the highest level of American intellectual and technological achievement.
