The acclaimed actor's shockingly prescient novel of speculative fiction "presents a near-future United States torn apart by civil war and deep racial strife" (Tampa Bay Times). For the first time ever, available as an audiobook read by the author. America today is teetering on the edge of the alarming vision presented in LeVar Burton's debut novel, written more than two decades ago . . . In 2012, the first African American president is assassinated by a white extremist--just four days after he is elected. The horrific tragedy leads to riots, financial collapse, and ultimately, a full-on civil war. In its aftermath, millions are left homeless as famine and disease spread throughout the country. But from Chicago, a mysterious voice cries out . . . To Leon Crane, a former NASA scientist now struggling to survive on the streets, the pleas he hears remind him of the wife he could not save--and offer him a chance at redemption. To Jacob Fire Cloud, a revered Lakota medicine man, the voice is a sign that the White Buffalo Woman has returned to unite all the races in peace and prosperity. And to little Amy Ladue, the cries are those of her mother, who disappeared during the devastating St. Louis earthquake--and who must still be alive. These three strangers will be drawn together to rescue someone they have never met, a woman who holds the key to a new future for humanity--one remarkably brimming with hope. "LeVar Burton brings a strong new voice to science fiction with this powerful, even disturbing, novel." --Ben Bova, New York Times-bestselling author "An amazingly good first novel." --Rocky Mountain News "I highly recommend this book!" --Whoopi Goldberg

The Math(s) Fix Crown

Syllogism is a form of logical argument allowing one to deduce a consistent conclusion based on a pair of premises having a common term. Although Aristotle was the first to conceive and develop this way of reasoning, he left open a lot of conceptual space for further modifications, improvements and systematizations with regards to his original syllogistic theory. From its creation until modern times, syllogism has remained a powerful and compelling device of deduction and argument, used by a variety of figures and assuming a variety of forms throughout history. The Aftermath of Syllogism investigates the key developments in the history of this peculiar pattern of inference, from Avicenna to Hegel. Taking as its focus the longue dur é e of development between the Middle Ages and the nineteenth century, this book looks at the huge reworking scientific syllogism underwent over the centuries, as some of the finest philosophical minds brought it to an unprecedented height of logical sharpness and sophistication. Bringing together a group of major international experts in the Aristotelian tradition, The Aftermath of Syllogism provides a detailed, up to date and critical evaluation of the history of syllogistic deduction.

NEW YORK TIMES BESTSELLER • A former Wall Street quant sounds the alarm on Big Data and the

mathematical models that threaten to rip apart our social fabric—with a new afterword “ A manual for the twenty-first-century citizen . . . relevant and urgent. ” —Financial Times NATIONAL BOOK AWARD LONGLIST • NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The New York Times Book Review • The Boston Globe • Wired • Fortune • Kirkus Reviews • The Guardian • Nature • On Point We live in the age of the algorithm. Increasingly, the decisions that affect our lives—where we go to school, whether we can get a job or a loan, how much we pay for health insurance—are being made not by humans, but by machines. In theory, this should lead to greater fairness: Everyone is judged according to the same rules. But as mathematician and data scientist Cathy O ’ Neil reveals, the mathematical models being used today are unregulated and uncontrollable, even when they ’ re wrong. Most troubling, they reinforce discrimination—propping up the lucky, punishing the downtrodden, and undermining our democracy in the process. Welcome to the dark side of Big Data.

Jewish and Romani Families in the Holocaust and its Aftermath Knopf

How does a nation recover from fascism and turn toward a free society once more? This internationally acclaimed revelatory history—"filled with first-person accounts from articles and diaries" (The New York Times)—of the transformational decade that followed World War II illustrates how Germany raised itself out of the ashes of defeat and reckoned with the corruption of its soul and the horrors of the Holocaust. Featuring over 40 eye-opening black-and-white photographs and posters from the period. The years 1945 to 1955 were a raw, wild decade that found many Germans politically, economically, and morally bankrupt. Victorious Allied forces occupied the four zones that make up present-day Germany. More than half the population was displaced; 10 million newly released forced laborers and several million prisoners of war returned to an uncertain existence. Cities lay in ruins—no mail, no trains, no traffic—with bodies yet to be found beneath the towering rubble. Aftermath received wide acclaim and spent forty-eight weeks on the best-seller list in Germany when it was published there in 2019. It is the first history of Germany's national mentality in the immediate postwar years. Using major global political developments as a backdrop, Harald J ä hner weaves a series of life stories into a nuanced panorama of a nation undergoing monumental change. Poised between two eras, this decade is portrayed by J ä hner as a period that proved decisive for Germany's future—and one starkly different from how most of us imagine it today.

She ’ s a sexually repressed control freak. He ’ s a muscular ex-con with heavier baggage than Santa ’ s toy bag. They ’ re everything each other never wanted. Mary I ’ m usually the first person on my block to decorate for Christmas. This year? Humbug. My six-year-old son, Aidan, just had a meltdown after learning some hard truths from a drunk Santa impersonator, and I can no longer deny we both need help. Change is hard for Aidan, and right now he ’ s dealing with several big ones, including A) his father abandoning us, B) our move to Asheville, and C) the Santa snafu. And me? I ’ m a control freak, and my life is more out-of-control than a sled on ice. That ’ s why I agree to let Aidan join Butterfly Buddies, a group that matches kids with adult mentors. It ’ s also why I agree to a mentor of my own—terrifying, pink-haired Nicole, who wants to help me live life on the wild side. Her advice is strangely compelling, especially after I meet Aidan ’ s new “ buddy, ” a gorgeous tattooed hunk of a man who makes me wish there weren ’ t cobwebs in my...well, you know. Jace Mary O ’ Shea is sexy as hell, but she doesn ’ t know it. She also doesn ’ t know I ’ m an ex-con, and if she finds out that I served three years in prison, extenuating circumstances won ’ t matter to her. The last thing I should do is get attached to her kid...or her, but I didn ’ t get in this position by making good decisions.

First released in the Spring of 1999, How People Learn has been expanded to show how the theories and insights from the original book can translate into actions and practice, now making a real connection between classroom activities and learning behavior. This edition includes far-reaching suggestions for research that could increase the impact that classroom teaching has on actual learning. Like the original edition, this book offers exciting new research about the mind

and the brain that provides answers to a number of compelling questions. When do infants begin to learn? How do experts learn and how is this different from non-experts? What can teachers and schools do—with curricula, classroom settings, and teaching methods—to help children learn most effectively? New evidence from many branches of science has significantly added to our understanding of what it means to know, from the neural processes that occur during learning to the influence of culture on what people see and absorb. How People Learn examines these findings and their implications for what we teach, how we teach it, and how we assess what our children learn. The book uses exemplary teaching to illustrate how approaches based on what we now know result in in-depth learning. This new knowledge calls into question concepts and practices firmly entrenched in our current education system. Topics include: How learning actually changes the physical structure of the brain. How existing knowledge affects what people notice and how they learn. What the thought processes of experts tell us about how to teach. The amazing learning potential of infants. The relationship of classroom learning and everyday settings of community and workplace. Learning needs and opportunities for teachers. A realistic look at the role of technology in education.

Bad Luck Club Crown Books for Young Readers

A grumpy man. A recovering people-pleaser. And the secret club that brings them together. Lee Buchanan is a hot mess. Turning one ’ s father in to the feds can do that to a man. He had nothing to do with his father ’ s Ponzi scheme, but he ’ s blacklisted from commercial real estate all the same. Which is how he ends up in Asheville, working at the brewery he inherited with his siblings. He ’ s salty as hell, and he doesn ’ t care who knows it. Until the gorgeous, intriguing Blue Combs issues the most peculiar invitation he ’ s ever received: Come to the Bad Luck Club. We can help you. It sounds like a cult or, worse, a group of Mary Sues, but Blue is different from any woman he ’ s ever met. For better or worse, he ’ s drawn to her. Just like she ’ s drawn to him, even if she has no intention of going all in with another man. She ’ s been there, done that, twice, and the life she ’ s built for herself is too important to risk. What starts as one person ’ s desire to help another turns into a connection too powerful to be denied—but can two broken people grow together, or will they tear each other apart?

Star Wars: Aftermath: Life Debt Theresa Ragan

The Second World War might have officially ended in May 1945, but in reality it rumbled on for another ten years... The end of the Second World War in Europe is one of the twentieth century's most iconic moments. It is fondly remembered as a time when cheering crowds filled the streets, danced, drank and made love until the small hours. These images of victory and celebration are so strong in our minds that the period of anarchy and civil war that followed has been forgotten. Across Europe, landscapes had been ravaged, entire cities razed and more than thirty million people had been killed in the war. The institutions that we now take for granted - such as the police, the media, transport, local and national government - were either entirely absent or hopelessly compromised. Crime rates were soaring, economies collapsing, and the European population was hovering on the brink of starvation. In Savage Continent, Keith Lowe describes a continent still racked by violence, where large sections of the population had yet to accept that the war was over. Individuals, communities and sometimes whole nations sought vengeance for the wrongs that had been done to them during the war. Germans and collaborators everywhere were rounded up, tormented and summarily executed. Concentration camps were reopened and filled with new victims who were tortured and starved. Violent anti-Semitism was reborn, sparking murders and new pogroms across Europe. Massacres were an integral part of the chaos and in some places — particularly Greece, Yugoslavia and Poland, as well as parts of Italy and France — they led to brutal civil wars. In some of the greatest acts of ethnic cleansing the world has ever seen, tens of millions were expelled from their ancestral homelands, often with the implicit blessing of the Allied authorities. Savage Continent is the story of post WWII Europe, in all its ugly detail, from the end of the war right up until the establishment of an uneasy stability across Europe towards the end of the 1940s. Based principally on primary sources from a dozen countries, Savage Continent is a frightening and thrilling chronicle of a world gone mad, the standard history of post WWII Europe for years to come. Five Days at Memorial CRC Press

After her brother's death from a heart defect, Lucy starts seventh grade at a new school—whose students survived a shooting four years ago—and must navigate different kinds of grief and healing

In the Aftermath Savas Beatie

In this book, Shell, himself a victim of polio, offers an inspired analysis of the disease. Part memoir, part cultural criticism and history, part meditation on the meaning of disease, Shell's work combines the understanding of a medical researcher with the sensitivity of a literary critic. He deftly draws a detailed yet broad picture of the lived experience of a crippling disease as it makes its way into every facet of human existence.

Problems of World War II and Its Aftermath: The Palestine question, Problems of postwar Europe Spectra

The stories of what happened after the shooting stopped and the process of burying bodies in the wake of Civil War carnage and chaos. The clash of armies in the American Civil War left hundreds of thousands of men dead, wounded, or permanently damaged. Skirmishes and battles could result in casualty numbers as low as one or two and as high as tens of thousands. The carnage of the battlefield left a lasting impression on those who experienced or viewed it, but in most cases the armies quickly moved on to meet again at another time and place. When the dust settled and the living armies moved on, what happened to the dead left behind? Unlike battle narratives, *The Aftermath of Battle* picks up the story as the battle ends. The burial of the dead was an overwhelming experience for the armies or communities forced to clean up after the destruction of battle. In the short-term action, bodies were hastily buried to avoid the stench and the horrific health concerns of massive death; in the long-term, families struggled to reclaim loved ones and properly reinter them in established cemeteries. Visitors to a battlefield often wonder what happened to the dead once the battle was over. This compelling, easy-to-read overview, enhanced with extensive photos and illustrations, provides a look at the aftermath of battle and the process of burying the Civil War dead.

Aftermath DGS

Lexi Pendergraft has given up on finding love after a disastrous encounter with her last boyfriend. Instead, she focuses on two things: One, setting up a summer program for underprivileged middle-school aged students. And the second, getting to the bottom of her brother Reed's recent strange behavior. His secret is destroying his relationship with his fiancée Caroline, and Lexi will do anything to help him save it. Especially after he gave up his dream to give Lexi a chance at a semi-normal college experience, something her parents threatened to steal from her after her rape a year ago. Ben Masterson is determined to make it through his final semester of his senior year at Southern University. After recently losing his full ride scholarship, he's suffering from sleep deprivation while trying to keep up with his mechanical engineering courses and working three part time jobs. He thinks he's lucked out getting a job in the university math lab. The only problem is his boss—Reed Pendergraft. As part of a role in a community theater play, Lexi wears a black wig and feels a confidence she hasn't experienced in over a year. When she wears it to a bar close to the theater, she doesn't think Ben, a bartender there, recognizes her. While Ben's intrigued about what she's up to, he's smart enough to stay far away from his overprotective boss's sister. Until fate forces him to help her, but why won't she tell him her real identity?

Modernist Radicalism and its Aftermath Penguin

Four years after being kidnapped, sixteen-year-old Charlotte returns home to find her family ripped apart, but before she can try to reunite them, or help find the body of her captor's first victim, she must come to terms with her past.

Renaissance Averroism and Its Aftermath: Arabic Philosophy in Early Modern Europe CarolRhoda Books ®

When David Herron—overwhelmed and despairing, his family's business and finances in ruin due to the bursting lending bubble of 2008—takes his own life one chilly spring morning, he has no idea the ripple effect his decision will set into motion. Two years later, his widow, Jules, is now an employee of the bakery she and David used to own—and still full of bitterness over David's lies, perceived cowardice, and ultimate abandonment of her and their now-teenage daughter, Rennie. Rennie, meanwhile, struggles socially at school, resents her work-obsessed mother, and is convinced she's to blame for her father's death. When Denise, the former police detective who worked (and, due to her own personal struggles at the time, mishandled) David's case, catches sight of Rennie at her sons' school, she's struck by the girl's halo of sadness—and becomes obsessed with attempting to right the wrongs she believes she perpetrated two years ago. And as all this unfolds in Boston, Daniel, the guilt-ridden young man who, in his old life as a banker, helped create the circumstances that led to David's suicide, continues to punish himself for his sins by living half a life, working odd jobs and bouncing from one US city to another, never staying long enough to make friends or build something lasting. Ultimately, each of these very different people—all of them tied together by one tragic event—must learn in their own way how to say good-bye to the past and move into a brighter future.

The Aftermath: Gleanings from a Busy Life St. Martin's Press

Samuel Beckett and the Politics of Aftermath explores Beckett's literary responses to the political maelstroms of his formative and middle years: the Irish civil war and the crisis of commitment in 1930s Europe, the rise of fascism and the atrocities of World War II. Archive yields a Beckett who monitored propaganda in speeches and newspapers, and whose creative work engages with specific political strategies, rhetoric, and events. Finally, Beckett's political aesthetic sharpens into focus. Deep within form, Beckett models ominous historical developments as surely as he satirizes artistic and philosophical interpretations that overlook them. He burdens aesthetic production with guilt: imagination and language, theater and narrative, all parallel political techniques. Beckett comically embodies conservative religious and political doctrines; he plays Irish colonial history against contemporary European horrors; he examines aesthetic complicity in effecting atrocity and covering it up. This book offers insightful, original, and vivid readings of Beckett's work up to *Three Novels and Endgame*.
