She turned to look at the sea. Flat stretch of water, blank and blue as the sky above. Pretty as a picture, except with black and grey craters where the bombs had fallen: as though some thuggish child had scrawled all over the picture out of spite alone... Jersey, June 1940. It starts with the burning man on the beach just after the bombs land, obliterating the last shred of hope that Hitler will avert his attention from the Channel Islands. Within weeks, 12,000 German troops land on the Jersey beaches, heralding a new era of occupation. For ten-year-old Claudine, it means a re-education under German rule, and as she befriends one of the soldiers, she inadvertently opens the gateway to a more sinister influence in her home with devastating consequences. For Maurice, a local fisherman, it means protecting his sick wife at all costs—even if it endangers his own life. Edith, the island's unofficial homeopath, is a Jerriais through to her bones. But even she can't save everyone, no matter how hard she tries. And as for English doctor Tim Carter—on the arrival of the brutal German Commandant, he becomes the subject of a terrifying regime that causes the locals to brand him a traitor, unaware of the torment he suffers in an effort to save them. When the Sky Fell Apart is a heartbreaking chorus of the resilience of the human spirit. It introduces an exciting new voice in literary fiction. Caroline Lea was born and raised in Jersey. She gained a First in English Literature and Creative Writing from Warwick University and has had poetry published in *The Phoenix Anthology* and *An Aston Anthology*, which she also co-edited. When the Sky Fell Apart is her first novel. 'An ambitious portrayal of the German occupation of Jersey during the Second World War...Lea's fondness for Jersey brings the landscape to life with vivid descriptions, which are one of the novel's highlights. An intriguing depiction of life under nazi occupation, the book explores a time and place rarely covered in fiction. It is an engaging narrative, and Lea should be applauded for a successful portrait of resilience and the strength of friendships during the challenges of wartime.' Lady '[A] strong debut...A moving and chilling portrait of life under Nazi heel.' Sunday Times 'Haunting...Through her characters' struggles, Lea explores the unlikely affinities that arise between humans during violent times and questions how far we might go to protect those we love.' Australian Women's Weekly 'This is a strong and lyrical first novel, that moves adroitly from the obscenity of war to the complexities of marriages, children, loss and loneliness.' Otago Daily Times 'Debut author Lea evokes the land with the lyrical fondness of a native... A finely detailed exploration of life during wartime.' Kirkus Reviews 'Prepare for your heart to break...Deserves to be read, not only for the blast of reality from the past, but also as a warning for the future.' When the Sky Fell on Splendor Penguin

On Christmas Eve 1971, the packed LANSA flight 508 from

Lima to Pucallpa was struck by lightning and went down in dense jungle hundreds of miles from civilization. Of its 93 passengers, only one survived. Juliane Koepcke, the seventeen-year-old child of famous German zoologists. She'd been thrown from the plane two miles above the forest canopy, but had sustained only a broken collarbone and a cut on her leg. With incredible courage, instinct and ingenuity, she survived three weeks in the "green hell" of the Amazon - using the skills she'd learned in assisting her parents on their research trips into the jungle - before coming across a loggers hut, and, with it, safety. Now she tells her fascinating story for the first time, and in doing so tells us about her 'Gerald Durrell' childhood - with a menagerie of wild, exotic and sometimes dangerous pets - about how she learned to survive at her parents ecological station deep in the rainforest and about her present-day commitment to this wildlife as a biologist and dedicated environmentalist.

White Dog Fell from the Sky Macmillan

Weaving together loss and anxiety with fantastic elements and literary sleight-of-hand, Kevin Brockmeier's richly imagined *Things That Fall from the Sky* views the nagging realities of the world through a hopeful lens. In the deftly told "These Hands," a man named Lewis recounts his time babysitting a young girl and his inconsolable sense of loss after she is wrenched away. In "Apples," a boy comes to terms with the complex world of adults, his first pangs of love, and the bizarre death of his Bible coach. "The Jesus Stories" examines a people trying to accelerate the Second Coming by telling the story of Christ in every possible way. And in the O. Henry Award winning "The Ceiling," a man's marriage begins to disintegrate after the sky starts slowly descending. Achingly beautiful and deceptively simple, *Things That Fall from the Sky* defies gravity as one of the most original story collections seen in recent years.

What It Means When a Man Falls from the Sky Turtleback Books

Scientific and mythological evidence that Antarctica was once Atlantis • Reveals how the earth's crust shifted in 9600 BCE, dragging Atlantis into the polar zone beneath miles of Antarctic ice • Examines ancient yet highly accurate maps, including the Piri Reis map of 1513, which reveals a pre-glacial Antarctica • Shows how myths of floods and disaster from around the world all point to a common source In this completely revised and expanded edition of *When the Sky Fell*, Rand and Rose Flem-Ath show that 12,000 years ago vast areas of Antarctica were free from ice and home to the kingdom of Atlantis, a proposition that also elegantly solves the mysteries of ice ages and mass extinctions, the simultaneous worldwide rise of agriculture, and the source of devastating prehistoric climate change. Expanding upon Charles Hapgood's theory of earth crust displacement, which was championed by Albert Einstein, they examine ancient yet highly accurate world maps, including the Piri Reis map of 1513, and show how the earth's crust shifted in 9600 BCE, dragging Atlantis into the polar zone where it now lies beneath miles of Antarctic ice. From the Cherokee, Haida, and Okanagan of North America to the earliest records of Egypt, Iran, Mexico, and Japan, they reveal that ancient myths of floods, lost island paradises, and visits from advanced godlike peoples from all corners of the globe all point to the same worldwide catastrophe that resulted in Atlantis's demise. The authors explain how the remaining Atlanteans, amid massive earthquakes and epic floods, evacuated and spread throughout the world, resulting in the birth of the

first known civilizations. Including rare material from the archives of Charles Hapgood, Albert Einstein, and Dwight D. Eisenhower, the Flem-Aths explain how an earth crust displacement could happen again in the future, perhaps in correspondence with high solar activity. With new scientific, genetic, and linguistic evidence in support of Antarctica as the location of long-lost Atlantis, this updated edition convincingly shows that Atlantis was not swallowed by the sea but was entombed beneath miles of polar ice.

History of Guernsey County, Ohio Simon Pulse

An extraordinary novel of love, friendship, and betrayal for admirers of Abraham Verghese and Edwidge Danticat Eleanor Morse's rich and intimate portrait of Botswana, and of three people whose intertwined lives are at once tragic and remarkable, is an absorbing and deeply moving story. In apartheid South Africa in 1977, medical student Isaac Muthethe is forced to flee his country after witnessing a friend murdered by white members of the South African Defense Force. He is smuggled into Botswana, where he is hired as a gardener by a young American woman, Alice Mendelssohn, who has abandoned her Ph.D. studies to follow her husband to Africa. When Isaac goes missing and Alice goes searching for him, what she finds will change her life and inextricably bind her to this sunburned, beautiful land. Like the African terrain that Alice loves, Morse's novel is alternately austere and lush, spare and lyrical. She is a writer of great and wide-ranging gifts.
