Private Down Under R&L Education
This book represents the results of a 15-year longitudinal study based on in-

depth case studies of the development of four teachers' pedagogical thinking. These studies illustrate how teachers' thinking--about children's behavior, development, learning, and teaching--develops over time, based on their personal and professional life experiences. It is an especially significant book because understanding how pedagogical thought develops over time and how these ideas are put into action in classrooms can be used to improve teacher education, teacher induction, and teacher retention programs. *Case Studies of Teacher Development: An In-Depth Look At How Thinking About Pedagogy Develops Over Time*: *provides insight into reasons why some teachers remain and others leave the teaching profession; *combines narrative with scholarship; *highlights the voices of four educators through extensive quotes from their interviewers, includes vignettes of their classroom teaching, and incorporates their own writing; *contributes to the field of teacher education and teacher development because of the long duration of the four case studies (1985-2000) and the accompanying scholarly analysis of internal and external influences on their lives as teachers; and *addresses changes in the nature of qualitative research as it influenced this longitudinal study over time. At a time when teacher induction and teacher retention are critically important, this book will help teacher educators, school and district leaders, and policymakers understand better how to retain novice and experienced teachers by supporting their professional growth and development. When we think of Catholicism, we think of Europe and the United States as the seats of its power. But while much of Catholicism remains headquartered in the West, the Church's center of gravity has shifted to Africa, Latin America, and developing Asia. *Focused on the transnational Sisters of Notre Dame de Namur, Unequal Partners* explores the ways gender,

race, economic inequality, and colonial history play out in religious organizations, revealing how their members are constantly negotiating and reworking the frameworks within which they operate. Taking us from Belgium and the United States to the Democratic Republic of the Congo, sociologist Casey Clevenger offers rare insight into how the sisters of this order work across national boundaries, shedding light on the complex relationships among individuals, social groups, and formal organizations. Throughout, Clevenger skillfully weaves the sisters' own voices into her narrative, helping us understand how the order has remained whole over time. A thoughtful analysis of the ties that bind—and divide—the sisters, *Unequal Partners* is a rich look at transnationalism's ongoing impact on Catholicism. *Collaborative / Therapeutic Assessment* Dramatists Play Service Inc
