Glenn Beck acknowledges this in the afterword he contributed which describes the real-world U.N. Agenda 21. Obviously, by lending his name to the project, he increases its visibility and readership, which is all for the good. If there's another book in the series, let's hope it returns to the high standard set by the first.

In the 1990s, the United Nations drafted "Agenda 21" -- their plan for defeating climate change. In 2015, it was re-branded by socialists into "Agenda 30," but neither had anything to do with global warming and everything to do with using it to reshape our political world. Starting last year, the push for Agenda 30 wasn't just about climate change
