Prayer has an important role in the lives of believers. For some, however, prayer has become a chore almost something to be dreaded than eagerly anticipated. Some people get caught up in the "how much/how often" they pray. But it really is not about how many chapters of the Bible you read or how many minutes a day you pray. It is that you read the Bible and you pray. In *From Duty to Delight: Finding Greater Joy in Daily Prayer*, author Ron Parrish seeks to help you become a person who enjoys spending time in God's presence through prayer someone who finds such joy in devotion that you will lose track of time. *From Duty to Delight* is written for the average person who struggles to set aside time for meaningful, focused interaction with God. If you feel badly about missing your devotions, if you quickly run out of things to say when you try to pray, if you sometimes find prayer boring, or if you have given up on trying to be a man or woman of prayer, *From Duty to Delight* can help you find your way to prayer that is fulfilling and that you can look forward to each day.

Two years before adopting seven-year-old Keydell from a group home for young boys, Kim made a vow before the Dalai Lama to become a bodhisattva: one who cultivates an enlightened mind, is free from delusion, and practices kindness and compassion above all else. However, she struggles with this practice as her new son's challenged mind sends him into fits of rage and violence, while seemingly allowing him to feel no remorse for his actions. His behaviors go against everything Kim believes in, but she is determined to keep her chocolate-eyed boy safely in the home she has created with her husband and two biological children. As she tries everything she can to get Keydell the help he needs, she must also learn to accept him exactly as he is: a tiger in the home of elephants. This vulnerable and touching account highlights the interplay between desire and reality, denial and acceptance, struggle and enlightenment. As the minds of this mother and her extraordinary son awaken - Kim's through her Buddhist practice, and Keydell's through the science of neurofeedback - we witness the power of love and compassion to overcome even the greatest odds."

The first biography of the seminal music group WAR whose many hits include "Spill the Wine," "All Day Music," "Why Can't We Be Friends?" "Slippin' into Darkness," "The Cisco Kid," and - of course - "Low Rider." They combined rock, funk, soul, R&B, jazz, and a strong Latin vibe in their music, they have been awarded two Platinum and eight Gold records in their career. Their album "The World is a Ghetto" was the bestselling release of 1973 and was #444 on the list of "Rolling Stone's Top 500 Albums" list. This unauthorized book follows the group from their early incarnations when Harold Brown and Howard Scott met to form the Creators and then the Night Shift, to their partnership with former Animals lead singer Eric Burdon, to a highly successful career on their own with the core original lineup of Brown, Scott, Lee Oskar, Lonnie Jordan, B.B. Dickerson, Papa Dee Allen, and Charles Miller.

The story also follows the band through their later, leaner years, the tragic deaths of two members, and the conflicts that led to a fissure and a split of performing entities that continues to this day. Featuring original interviews, archival research, and musical analysis and commentary, "Slippin' Out of Darkness: The Story of WAR" tells the tale of one of the most unique bands in the history of Classic Rock-era music.

It is written for the man who, as he is climbing the ladder of success, is starting to realize that the ladder is on the wrong wall. *Toward Manhood* is about the inevitable crisis of meaning and life direction that most men in modern culture will ultimately face. This book is based on psychological and spiritual principles lost in the modern Western world that still endure after thousands of years. Using archetypal puberty initiation rituals that have always led toward a purposeful life *Toward Manhood* translates this indigenous practice into a modern understanding of healthy psychological and spiritual maturity. The old and the new come together in this book to create a modern model of manhood that is worthy of the inner pain and struggle it takes to brave the wilderness of the soul's identity.

of European history, this true narrative provides a window into the palpating heart of wartime upheaval through the lives of Rolf Dutzmann and Lilo Wassull-two people fatefully positioned "on the other side." In December of 1939, swept along on a tide of dire necessity and circumstance due to the imminent Soviet takeover of his homeland, Rolf, a young Latvian aeronautical engineering student, flees with his family to Germany, a country fully under Hitler's control and already engaged in a brutal war. While the account chronicles Rolf's pursuit of his technical dream against daunting wartime odds, it is first and foremost a poignant love story that plays out against a panorama of worldwide chaos and destruction. It is also a story of the seen and unseen forces that coalesce to keep Rolf and Lilo alive after they meet in 1940 Berlin, leading them through a chain of cataclysmic events including Rolf's draft into the Luftwaffe and his father's assignment as chief inspector of V-2 rocket production; the bombing of Berlin; the destruction of their homes; their numerous desperate, cross-country escapes from the bombing, the advancing Soviet troops from the east, and other Allied forces from the west; the POW camp hardships; and the deprivation of the postwar years. Despite the immeasurable evil, suffering and desolation of World War II, a synchronistic chain of events provides an uplifting reminder that love and hope may take wing even out of the ashes of life's most terrifying adversities.

One of the largest and fastest-growing religions, Islam is currently practiced by approximately one-fifth of the world's population. Unlike most religions that only consist of acts of worship, rituals, and a set of beliefs, it also offers a just socio-politico-economic system, which is especially important today as we continue to make significant material and scientific progress. However, although it presents real solutions to problems faced by the whole of mankind, factors such as worldwide media propaganda and the current condition of the Muslim community have seriously distorted the public image of Islam. Adeel Zeerak hopes that his book *Islam: A Superior System of Life* will help change all that. He says that after careful study, even those with non-Muslim unprejudiced minds will appreciate the beauty of his religion's teachings. To prove the superiority of Islamic system over other systems, he provides concrete data obtained from authentic sources and refrains from using boastful or exaggerative language. Chapters in *Islam: A Superior System of Life* include:

- This is Islam
- Characteristics of the Islamic System
- Spiritual System
- Social System
- Economic System
- Political System
- The Prophet, peace be upon him, the Message, and the Ummah

"Despite commendable progress in the field of science and technology, this world is full of evil, exploitation, and injustice," says Zeerak, who believes any effort to find a solution to our problems continually fails because we choose to ignore the light of Divine Guidance. We all know what happened to prophet Noah's people when they rejected this guidance, but we, thankfully, still exist in this world to follow our Lord and accept Islam. Written for the Muslim and non-Muslim,

Islam: A Superior System of Life is for readers interested in Islam, the prophet Muhammad (PBUH), the Islamic view of women, the concept of Khilafat, Islamic finance, Islamic spirituality, and Islamic history. The author promises that our obedience to Allah, subhanahu wa-ta'ala, will result in endless favors and blessings both in this world and the hereafter.

The Seeds of New Earth (the Silent Earth, Book 2) Createspace Independent Pub Watson and Crick discovered the human DNA.

What made the difference was deciphering it. Like the human body, every organization has a DNA. What will make the difference is not seeing it, but sequencing it. It's the key to long-term success at innovation. Sequencing, written by business consultant Michael Metzger, explores what is required for a company to develop a culture that promotes innovation for the long haul. Harvard's Clayton Christensen reports that few companies have the capacity to innovate. The more success a company achieves, the harder it is for the company to innovate. And yet the reality is that companies innovate or die. Metzger outlines the steps necessary to sustain innovation - the culture, conscience, and C-level leadership required. It begins by having an accurate assessment of human nature and reality. Institutional leaders ignore this book at their peril.
