Life Skills, Grade 6 Ags Classic Short Stories

Student Activity Workbook

World Geography Student Workbook John Wiley & Sons

"... a curriculum geared toward helping students gain skills in consciously regulating their actions, which in turn leads to increased control and problem solving abilities. Using a cognitive behavior approach, the curriculum's learning activities are designed to help students recognize when they are in different states called "zones," with each of four zones represented by a different color. In the activities, students also learn how to use strategies or tools to stay in a zone or move from one to another. Students explore calming techniques, cognitive strategies, and sensory supports so they will have a toolbox of methods to use to move between zones. To deepen students' understanding of how to self-regulate, the lessons set out to teach students these skills: how to read others' facial expressions and recognize a broader range of emotions, perspective about how others see and react to their behavior, insight into events that trigger their less regulated states, and when and how to use tools and problem solving skills. The curriculum's learning activities are presented in 18 lessons. To reinforce the concepts being taught, each lesson includes probing questions to discuss and instructions for one or more learning activities. Many lessons offer extension activities and ways to adapt the activity for individual student needs. The curriculum also includes worksheets, other handouts, and visuals to display and share. These can be photocopied from this book or printed from the accompanying CD."--Publisher's website.

Vocabulary from Classical Roots is a thematically organized vocabulary program based on Greek and Latin roots. Each of the

16 lessons features 23 roots and 815 words derived from these roots. Words are presented with dictionary-style definitions, and all words are used in example sentences. Lists of Familiar Words and Challenge Words are provided for each root to help all students activate prior knowledge and keep advanced students on task. Exercises include synonym/antonym, fill in the blank, identification of incorrect usage, and analogies. Review activities including writing extensions, discussion questions, and other exercises are provided after every two lessons. The themes presented in Book E include: Here and There, Government, Up and Down, Business, Light and Dark, Open and Shut, Military Matters, Good and Bad, and The Law. Some of the words presented in this book include: cede, exhort, cartel, aver, malign, induce, juxtapose, censure, echelon, peripatetic, and succumb. Grade 11."
