A utomotive Industry Action Group (AIAG) and German Association of the Automotive Industry (VDA) are the highest entities when it comes to regulations and good practices in the auto industry. Yet they do not always speak the same language, and FMEA (Failure Mode and Effect Analysis) is one area where there are different understandings. But 2018 is the year of change, the year of harmonization.

In the AIAG-VDA DFMEA method, the design requirements, failure modes, effects, and causes are not entered directly into the DFMEA as they are in the AIAG 4th Edition FMEA. They are derived from a structure analysis, function analysis, and failure analysis. As we will see, this proves to be much more inefficient.
