Broken (the Watcher Chronicles, Book 1, Paranormal Romance) Knopf Books for Young Readers
NEW YORK TIMES BESTSELLER • NATIONAL BOOK AWARD WINNER • From one of America's iconic writers, a stunning book of electric honesty and passion that explores an intensely personal yet universal experience: a portrait of a marriage—and a life, in good times and bad—that will speak to anyone who has ever loved a husband or wife or child. Several days before Christmas 2003, John Gregory Dunne and Joan Didion saw their only daughter, Quintana, fall ill with what seemed at first flu, then pneumonia, then complete septic shock. She was put into an induced coma and placed on life support. Days later—the night before New Year's Eve—the Dunes were just sitting down to dinner after visiting the hospital when John Gregory Dunne suffered a massive and fatal coronary. In a second, this close, symbiotic partnership of forty years was over. Four weeks later, their daughter pulled through. Two months after that, arriving at LAX, she collapsed and underwent six hours of brain surgery at UCLA Medical Center to relieve a massive hematoma. This powerful book is Didion's attempt to make sense of the “weeks and then months that cut loose any fixed idea I ever had about death, about illness ... about marriage and children and memory ... about the shallowness of sanity, about life itself.

Six Ways is a handbook of magic and sorcery, rooted in witchcraft, folk magic, chaos magic, and animist spirit work. Subjects covered include sigils, servitors, meditation, trance, spiritual cleansing, warding, dream sorcery, candle magic, talismanic magic, and tending to the spirit ecologies we live with and in. Six Ways looks at how and why to build relationships in all of the worlds, manifest and unmanifest (what Wachter calls the Field) that allow us to perform effective magic. Effective magic is magic that changes us at the mind, soul, and spirit levels while improving our real-world circumstances. The focus is on finding pathways to the Otherworlds and building symbiotic relationships with the Others (the spirits and allies) that dwell there. Sorcery then becomes the practice of working within those relationships to effect the changes we seek in our lives.

Night of the Wolf Moon Flatiron Books

An embittered dog walker obsessed with a social media influencer inadvertently puts a curse on a young man—and must adventure into mysterious dimensions in order to save him—in this wildly inventive, delightfully subversive, genre-nonconforming debut novel about illusion, magic, technology, kinship, and the emergent future. The year is 20__, and Penfield R. Henderson is in a rut. When he's not walking dogs for cash or responding to booty calls from his B-list celebrity hookup, he's holed up in his dingy Bushwick apartment obsessing over holograms of Aiden Chase, a fellow trans man and influencer documenting his much smoother transition into picture-perfect masculinity on the Gram. After an IRL encounter with Aiden leaves Pen feeling especially resentful, Pen enlists his roommates, the Witch and the Stoner-Hacker, to put their respective talents to use in hexing Aiden. Together, they gain access to Aiden's social media account and post a picture of Pen's aloe plant, Alice, tied to a curse: Whosoever beholds the

aloe will be pushed into the Shadowlands. When the hex accidentally bypasses Aiden, sending another young trans man named Blithe to the Shadowlands (the dreaded emotional landscape through which every trans person must journey to achieve true self-actualization), the Rhiz (the quasi-benevolent big brother agency overseeing all trans matters) orders Pen and Aiden to team up and retrieve him. The two trace Blithe to a dilapidated motel in California and bring him back to New York, where they try to coax Blithe to stop speaking only in code and awkwardly try to pass on what little trans wisdom they possess. As the trio makes its way in a world that includes pitiless avocados and subway cars that change color based on occupants' collective moods but still casts judgment on anyone not perfectly straight, Pen starts to learn that sometimes a family isn't just the people who birthed you. Magnificently imagined, linguistically dazzling, and riotously fun, *Future Feeling* presents an alternate future in which advanced technology still can't replace human connection but may give the trans community new ways to care for its own.

Before he can truly give Caylin the beautiful future she deserves, he must willingly let go of his personal demons and allow them to remain buried where they belong, in the past. Now available for the first time—more than 50 years after it was written—is the memoir of Michael Dillon/Lobzang Jivaka (1915–62), the British doctor and Buddhist monastic novice chiefly known to scholars of sex, gender, and sexuality for his pioneering transition from female to male between 1939 and 1949, and for his groundbreaking 1946 book *Self: A Study in Ethics and Endocrinology*. Here at last is Dillon/Jivaka's extraordinary life story told in his own words. *Out of the Ordinary* captures Dillon/Jivaka's various journeys—to Oxford, into medicine, across the world by ship—within the major narratives of his gender and religious journeys. Moving chronologically, Dillon/Jivaka begins with his childhood in Folkestone, England, where he was raised by his spinster aunts, and tells of his days at Oxford immersed in theology, classics, and rowing. He recounts his hormonal transition while working as an auto mechanic and fire watcher during World War II and his surgical transition under Sir Harold Gillies while Dillon himself attended medical school. He details his worldwide travel as a ship's surgeon in the British Merchant Navy with extensive commentary on his interactions with colonial and postcolonial subjects, followed by his "outing" by the British press while he was serving aboard *The City of Bath*. *Out of the Ordinary* is not only a salient record of an early sex transition but also a unique account of religious conversion in the mid-twentieth century. Dillon/Jivaka chronicles his gradual shift from Anglican Christianity to the esoteric spiritual systems of George Gurdjieff and Peter Ouspensky to Theravada and finally Mahayana Buddhism. He concludes his memoir with the contested circumstances of his Buddhist monastic ordination in India and Tibet. Ultimately, while Dillon/Jivaka died before becoming a monk, his novice ordination was significant: It made him the first white European man to be ordained in the Tibetan Buddhist tradition. *Out of the Ordinary* is a landmark publication that sets free a distinct voice from the history of the transgender movement.
